ROSEDALE NURSERIES • EASTVIEW • NEW YORK

To Rosedale's Customers:

This year, in an effort to make our catalog more helpful to you, our customers, we have attempted to approach the listing of our stock in a somewhat different way.

As you read through you will find that we try to point out a few of the major characteristics and a few of the *primary* uses to which the various plant materials may be put. However, we cannot emphasize too strongly that these are not the *sole* uses for these plants. Plants are alive—growing—and as such are not always predictable.

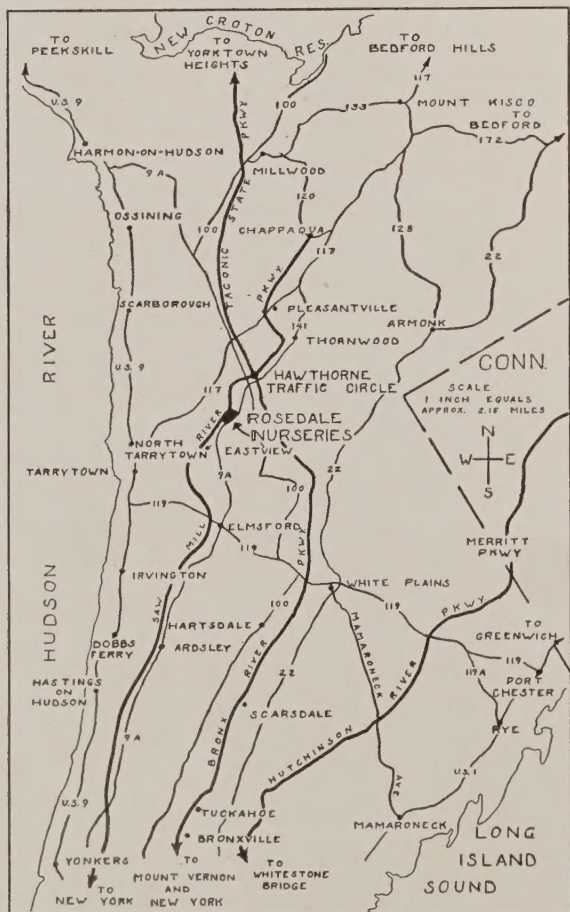

Nothing can take the place of suiting the individual plant to the spot. No matter whether radical or traditional, it is important that it be what *you* want—you are going to live with it.

To effect this more personal treatment of your planting plans, we urge you to come to the nurseries and look over the material, selecting the types which appeal to you.

Should your landscape problems be more comprehensive than you feel you can satisfactorily solve, consult our Landscape Department. But, regardless of whether you or we do the planning, it is highly desirable to come to the nurseries where you may select your own plants right here—growing in the ground.

If it is not possible for you to visit us, we want to assure you that each plant, whether sent by truck, parcel post or express, is chosen with infinite care—selecting the best in its size and price range.

Again, may we urge you to accept our most cordial invitation to visit Rosedale Nurseries.

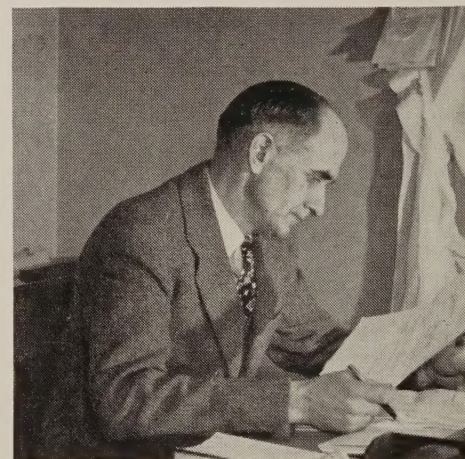

LOCATION: 3½ miles north of Elmsford on the Saw Mill River Parkway and on Saw Mill River Road, Rte. 9A Entrance on both roads.
1 mile south of the Hawthorne Circle on Saw Mill River Parkway.
1½ miles north of Eastview on the Saw Mill River Parkway.
HOURS: 7:30 to 6:00 p.m. Monday through Saturday;
9:00 to 5:00 p.m. Sundays March 13 through May 29, 1949.
VISITORS ALWAYS WELCOME

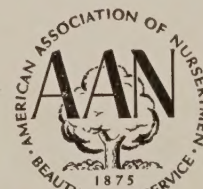

Howard C. Taylor

FLOWERING SHRUBS

Shrubs are vitally important in creating the pleasing and ever-changing effect in the home and garden landscape. A succession of blooms and foliage color changes marks the seasons with their varied pictures.

In beds or borders, as backgrounds or hedges, or in groups, Flowering Shrubs point to one of the most inexpensive ways of obtaining better landscaping. While if allowed to go uncared for, some Shrubs may get coarse and overgrown, this can be avoided easily by a little simple pruning.

A wise choice of Shrubs will bring you colorful blossoms throughout the entire growing season. We have taken particular pains in growing our stock to keep them well-spaced to encourage maximum development.

ALL BARE ROOT EXCEPT WHERE INDICATED B&B

PLANTING BARE ROOT MATERIAL

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see instructions on page 24

SOME SUGGESTIONS FOR USING FLOWERING SHRUBS:

SHRUBS FOR DRY PLACES, ALSO FOR ADVERSE CITY CONDITIONS:

Acanthopanax pentaphyllum... *Fiveleaf Aralia*
Berberis thunbergii... *Japanese Barberry*
Colutea arborescens... *Bladder-senna*
Elaeagnus angustifolia... *Russian Olive*
Forsythia spectabilis... *Golden Bell*
Ligustrum, in variety... *Privet*
Rhodotypos kerrioides... *Jetbead*
Spiraea vanhouttei... *Bridalwreath*
Symphoricarpos vulgaris... *Coralberry*
Syringa vulgaris... *Lilac*

ACANTHOPANAX pentaphyllum (*Aralia pentaphyllum*). An attractive, prickly shrub of dense growth. The lovely bright green leaves of tropical appearance make it desirable for a hedge, bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions. M

2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

ALTHAEA (*Rose of Sharon*). A rather erect and tall growing shrub of neat form. Blooms in late Summer, beginning in August and lasting usually until heavy frosts. Splendid plants in following varieties. M

A. anemoneflorus. Semi-double white with dark center.
 2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

A. coelestis. Single, blue. An outstanding, newer form of a delightful shade.
 2 to 3 ft. \$1.50

A. Jeanne d'Arc. Double white.
 2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

A. Lady Stanley. Double blush-white, splashed with deep pink. A very popular color and one of the best.
 2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

A. paeoniflorus (*Peony Althea*). Semi-double white with carmine center.
 2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

SHRUBS FOR WET PLACES:

Amelanchier canadensis... *Shadblow*
Aronia arbutifolia... *Red Chokeberry*
Azalea viscosa... *Swamp Azalea*
Benzoin aestivale... *Spicebush*
Calycanthus floridus... *Sweetshrub*
Chionanthus virginica... *White Fringe*
Clethra alnifolia... *Sweet Pepperbush*
Enkianthuscampanulatus... *Redvein Enkianthus*
Hypericum... *St. Johnswort*
Itea virginica... *Sweetspire*
Vaccinium corymbosum... *Blueberry*
Viburnum cassinoides... *Withered*
Viburnum dentatum... *Arrowwood*
Viburnum opulus... *Highbush Cranberry*

SHRUBS UP TO 5 FT.—BELOW EYE LEVEL:

Amygdalus... *Flowering Almond*
Callicarpa purpurea... *Beautyberry*
Deutzia gracilis
Spiraea thunbergii... *Thunberg Spirea*
Spiraea Anthony Waterer... *Dwarf Spirea*
Viburnum carlesi... *Fragrant Viburnum*
Euonymus alatus compacta

SHRUBS 6 FT. AND OVER:

Althaea... *Rose of Sharon*
Enkianthuscampanulatus... *Redvein Enkianthus*
Euonymus alatus... *Corkbark Euonymus*
Forsythia spectabilis... *Forsythia*
Kolkwitzia amabilis... *Beautybush*
Philadelphus coronarius... *Sweet Mockorange*
Syringa, in variety... *Lilac*
Viburnum dilatatum... *Linden Viburnum*
Viburnum theiferum

SHRUBS HAVING ATTRACTIVE FRUITS:

Callicarpa purpurea... *Beautyberry*
Berberis koreana... *Korean Barberry*
Euonymus alatus... *Corkbark Euonymus*
Ilex verticillata... *Winterberry*
Aronia arbutifolia brilliantissima
Brilliant Chokeberry
Lonicera tatarica... *Tartarian Honeysuckle*
Symphoricarpos chenaultii
Pink-berried Snowberry
Symphoricarpos racemosus... *Snowberry*
Viburnum dilatatum... *Linden Viburnum*
Viburnum theiferum

SPRING-FLOWERING SHRUBS:

Amelanchier canadensis... *Shadblow*
Amygdalus... *Flowering Almond*
Cydonia japonica... *Flowering Quince*
Deutzia gracilis... *Slender Deutzia*
Forsythia spectabilis... *Forsythia*
Forsythia primulina... *Forsythia*
Salix caprea... *Pussy Willow*
Philadelphus virginialis... *Double Mockorange*
Spiraea thunbergii... *Thunberg Spirea*

SUMMER-FLOWERING SHRUBS:

Althaea... *Rose of Sharon*
Buddleia... *Butterflybush*
Clethra alnifolia... *Sweet Pepperbush*
Deutzia scabra, *Pride of Rochester*
Hypericum prolificum... *St. Johnswort*
Hydrangea arborescens... *Summer Hydrangea*
Sorbaria aitchisoni... *Falsespirea*
Vitex macrophylla

ALTHAEA—Continued

A. totus alba. Finest single white of all.
 2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

AMELANCHIER canadensis. Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June. F

2 to 3 ft. \$1.25
 3 to 4 ft. 2.00

AMYGDALUS (*Flowering Almond*). Profusion of deep pink, double rosettes on bare stems in late April and early May. Pink or white. M

18 to 24 in. \$1.25
 2 to 2½ ft. heavy. 1.75
 2½ to 3 ft. 2.50
 3 to 4 ft. B&B. 3.50

Although authorities differ, we have tried, in an effort to aid you in your selection, to give the consensus of opinion in coding our plant material as to speed of growth:

S—Slow growing F—Fast growing
 M—Moderate growing

ARONIA arbutifolia brilliantissima (*Brilliant Chokeberry*). Handsome red Autumn foliage on a shrub of modest upright growth. Abundance of brilliant red berries, very attractive to birds. F

2 to 3 ft. \$1.50

AZALEAS, Deciduous. While certain Azaleas are deciduous—that is, lose their leaves during the Winter—we feel that it is better to list all Azaleas together. Therefore both deciduous and evergreen types will be found under Broadleaved Evergreens.

BENZOIN aestivale (*Spicebush*). Native shrub with fringed yellow flowers in early Spring. Leaves and twigs aromatic. F

2 to 3 ft. \$1.00
 3 to 4 ft. 1.50

BERBERIS koreana (*Korean Barberry*). A hardy species from Korea, large blotched leaves and upright, uniform growth. Gorgeous Fall coloring of most brilliant scarlet. Large clusters of red berries. M

2 to 3 ft. \$1.00
 3 to 4 ft. 1.75

B. mentorensis (Plant Pat. No. 99). A brand new variety of strong, rugged, upright habit. More beautiful than Japanese Barberry. Able to withstand heat and drought. Foliage darkest green and holds late in Fall. Highly recommended. M

15 to 18 in. 75c., each, \$75.00 per 100

FLOWERING SHRUBS—Continued

BERBERIS—Continued

B. thunbergi (*Japanese Barberry*). Commonly used in hedges. Red berries in the Fall. M
18 to 24 in.

60c. each, \$45.00 per 100
2 to 2½ ft.

\$1.00 each, \$90.00 per 100

B. thunbergi atropurpurea (*Redleaf Barberry*). Very similar to *B. thunbergi* except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily. M
15 to 18 in.

75c. each, \$65.00 per 100
18 to 24 in.

90c. each, \$85.00 per 100

BUDDLEIA, Charming (*Butterflybush*). A glorious shrub, bearing throughout the late Summer and Autumn elegant sprays with lavender-pink blooms. F
2 year.....\$0.75
Potted 6 in. pots.....\$1.25

EUONYMUS ALATUS

B. Dubonnet. A glorious color—a counterpart of the popular French wine, Dubonnet. Erect, strong-stemmed. F

2 yr.....\$0.75 | Potted 6 in. pots..\$1.25

B. Ile de France. Fragrant, brilliant rosy purple flowers, suffused violet. Profuse bloomer. Large flower spikes. F

2 yr.....\$0.75 | Potted 6 in. pots..\$1.25

B. Pink Dawn. Abundant, truly pink blooms throughout Summer and Fall. Excellent for cutting, sprays often 2 to 3 ft. long. Compact plant, attaining 4 or 5 ft. in height. Deep green foliage. Best pink Buddleia. F

2 yr.....\$0.75 | Potted 6 in. pots..\$1.25

B. Royal Red (Plant Pat. 556). The first truly red Butterflybush. Fragrant and fine for cutting. Medium growth. F

2 yr.....\$0.75 | Potted 6 in. pots..\$1.25

B. White Bouquet (*New White Butterflybush*). Long, lovely, fragrant, glistening white sprays like White Lilacs all Summer and Fall, on graceful, medium-sized bush that seldom exceeds 5 to 6 ft. in height. Sweetly fragrant and attractive to butterflies. This is something distinctly different in Buddleias and is a definite contribution to Horticulture. You will want several in your garden this year. Long lasting cut flowers for the house and just as beautiful in the garden. F

2 yr.....\$0.75 | Potted 6 in. pots..\$1.25

ALTHAEA COELESTIS

© J. & P. 11

BUDDLEIA, White Bouquet
(Pat. No. 536)

ENKIANTHUS

FORSYTHIA SPECTABILIS

HYPERICUM

HYDRANGEA P. G.

DEUTZIA GRACILIS

COLUTEA arborescens (*Common Bladder-senna*). Showy display of clusters of bright yellow pea flowers with red markings, which bloom from May into Midsummer. Fruits are very decorative pinkish-green bladder-like pods from which plant obtains its common name. M
3 to 4 ft. . . \$1.50 | 4 to 5 ft. . . \$2.00

CYDONIA japonica (*Flowering Quince*). Early blooming shrub with shiny green foliage and deep crimson flowers. M
18 to 24 in. \$1.00 | 2 to 3 ft. . . 1.50

C. Coral Pink. Very prostrate in growth. Excellent for bank plantings. M
18 to 24 in. spread, extra heavy. \$1.50
3 ft. spread, extra heavy. 2.00

DEUTZIA gracilis (*Slender Deutzia*). A dwarf variety with small, white flowers that completely cover it in May. S
12 to 15 in. \$0.75 | 15 to 18 in. \$1.00

D. gracilis rosea (*Rose-panicked Deutzia*). Pink form of D. gracilis. Branches of this pink Deutzia are very graceful. S
15 to 18 in. \$0.75 | 18 to 24 in. \$1.00

D. scabra, Pride of Rochester. White flowers borne in July in great profusion. A handsome shrub of vigorous habit. Attains about 8 ft. in height. F
2 to 3 ft. . . \$0.75 | 3 to 4 ft. . . \$1.25
4 to 5 ft. \$2.00

CYDONIA JAPONICA

KOLKWITZIA

FLOWERING SHRUBS—Continued

CALLICARPA purpurea (*Beautyberry*). An attractive shrub, growing about 3 to 4 ft. tall, bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender blue berries in dense clusters along the branches. F
3 year. \$1.00
4 year. 1.50

CALYCANTHUS floridus (*Sweet Shrub*). An old-fashioned shrub with chocolate-colored blossoms. Leaves and bark have a spicy fragrance. A splendid bush. M
2 to 3 ft. \$1.00
3 to 4 ft. 1.50
4 to 5 ft. 2.50
5 to 6 ft. 3.50

CHIONANTHUS virginicus (*White Fringetree*). One of the most striking native small trees or shrubs because of its handsome, glossy, Magnolia-like leaves, which turn a bright golden yellow in Autumn. Produces masses of loose panicles of feathery petaled snow-white flowers in Midsummer. F
3 to 4 ft. \$2.00
4 to 5 ft. 2.75
5 to 6 ft. 5.00

ELAEAGNUS angustifolia (*Russian Olive*). A spreading bush with silvery-gray bark. Fragrant yellow flowers followed by orange fruit. It is fine for show, hedgerow or screen planting. F
4 to 5 ft.\$2.50
5 to 6 ft. 3.50

ENKIANTHUS campanulatus (*Redvein Enkianthus*). Without artificial shaping, will develop into a handsome, large shrub, well clothed with clean foliage which turns brilliant red in Fall. Bunches of nodding flowers are borne on the whorled branches and these red-veined white cups are quite unlike any other flower. S
3 to 4 ft.\$6.00
4 to 5 ft. 7.50

EUONYMUS alatus (*Corkbark Euonymus*). Particularly striking shrub, especially in Autumn and Winter, with corky wings and scarlet Fall foliage and berries. Blooms white. M
2 to 3 ft.\$1.50

E. alatus compacta. Just as beautiful and much neater and slower in growth than the original. A grand specimen or may be used in foundation planting. S
18 to 24 in.\$1.75
2 to 3 ft. 2.50

FORSYTHIA primulina (*Primrose Forsythia*). Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F
2 to 3 ft.\$1.00

F. spectabilis (*Showy Border Forsythia*). By far the best of the Forsythias in color, size of flower and profusion of bloom. Use a bold group for early Spring effect. F
2 to 3 ft.\$0.75
3 to 4 ft. 1.00
4 to 5 ft. 1.75
4 to 5 ft. extra heavy 2.50

HAMAMELIS virginiana (*Witch-hazel*). Irregular spreading shrub with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun. M
3 to 4 ft.\$1.50
4 to 5 ft. 2.50
5 to 6 ft. 3.50

HYDRANGEA arborescens (*Summer Hydrangea*). Large, pure white blooms in July and August. F
3 yr. clumps.\$1.50

H. hortensis var. otaksa (*Bigleaf Hydrangea*). Sometimes called the greenhouse Hydrangea. Bushy growth; flowers profusely in pink or blue shades according to soil acidity. F
3 yr.\$1.75

H. paniculata grandiflora (*Peegee Hydrangea*). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F
2 to 3 ft.\$1.00
3 to 4 ft. 1.50

HYPERICUM aureum (*Golden St. Johnswort*). The golden-yellow flowers in July and August measure 1 to 2 in. in diameter. Very interesting looking with its blue-green leaves, angular twigs and peeling bark. This dense, upright shrub reaches about 3 ft. and is very hardy. S
18 to 24 in.\$1.00

H. prolificum (*St. Johnswort*). A showy shrub of stiff, dense habit. Grows to 3 ft. Brilliant yellow flowers from July to September. S
2 to 3 ft.\$1.25

ILEX verticillata (*Winterberry*). Berrying plants. A fine, native shrub, carrying its bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups to insure production of berries. M
2 to 3 ft.\$1.25
3 to 4 ft. 2.00

ITEA virginica (*Sweetspire*). Drooping clusters of white fragrant flowers in July. Upright shrub 3 to 8 ft. tall. Will stand semishade and moist spots. M
2 to 3 ft.\$1.00

KOLKWTZIA amabilis (*Beautybush*). A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M
2 to 3 ft.\$1.50
3 to 4 ft. 2.00
4 to 5 ft. heavy 5.00

LIGUSTRUM amurense (*Amur Privet*). True, hardy, upright variety with lustrous leaves. Good hedge plant for quick-growing screen as plants will attain 15 ft. in height. F
2 to 3 ft.\$2.50 per doz., \$20.00 per 100

L. ibota (*Ibota Privet*). Graceful, arching branches with small, white flowers in clusters. Makes a splendid informal hedge. Exceptionally hardy. F
2 to 3 ft.\$0.60
3 to 4 ft.85
4 to 5 ft. 1.50
5 to 6 ft. 2.50

L. ovalifolium (*California Privet*). The form most commonly used for hedges. F
2 to 3 ft.\$2.50 per doz., \$16.00 per 100
3 to 4 ft.\$3.50 per doz., \$25.00 per 100

L. regelianum (*Regel Privet*). A low spreading form, almost horizontal. S
2 to 3 ft.\$0.85
3 to 4 ft. 1.25

LONICERA tartarica (*Upright Honeysuckle*). Finest in habit of Bush Honeysuckles. A rapid grower, attaining 10 to 12 ft. in height. May be had in either Pink or Whiteflowering varieties. F
2 to 3 ft.\$1.00
3 to 4 ft. 1.50

L. zabelli. A new, very red shrub Honeysuckle of medium growth. Bears an abundance of red fruit and blossoms are bright and in great profusion. M
2 to 3 ft.\$1.25
3 to 4 ft. 1.75

PHILADELPHUS coronarius (*Sweet Mockorange*). Extremely fragrant variety of Mockorange. Blooms white in May and June. F
2 to 3 ft.\$1.00
3 to 4 ft. 1.50
4 to 5 ft. 2.50
5 to 6 ft. 3.50

P. Minnesota Snowflake (Plant Patent No. 538). A grand addition to the Philadelphus family which produces a profusion of large, very double, pure white flowers of some fragrance. Shrub grows bushy and shapely and in this respect very superior to Philadelphus Virginal. M
2 to 3 ft.\$1.50
3 to 4 ft. 2.00

P. virginialis (*Double Mockorange*). Fine, double-flowering variety which blooms profusely. Fragrant. M
18 to 24 in.\$1.25
2 to 3 ft. 1.50
3 to 4 ft. 2.00

RHODOTYPOS kerrioides (*Jetbead*). Small, shapely shrub, bearing white flowers and black berries. Foliage handsome. Good for shade. M
2 to 3 ft.\$1.25

SALIX caprea (*Pussy Willow*). Desirable for early Spring effects and will do well in dry locations as well as wet. F
3 to 4 ft. 1.00
4 to 5 ft. 1.75

SORBARIA aitchisoni (*Falsespirea*). Brilliant green foliage and red stems make this extremely handsome. Clusters of foamy white flowers in late Midsummer. Grows to 6 or 8 ft. F
2 to 3 ft.\$1.50

SPIRAEA, Anthony Waterer (*Dwarf Spirea*). A small, compact shrub with pink flowers in July. M
15 to 18 in.\$0.90
18 to 24 in. 1.25

S. prunifolia (*True Bridalwreath*). Long racemes of pure white flowers in May. Small, glossy foliage. M
18 to 24 in.\$1.00
2 to 3 ft. 1.50

S. thunbergi (*Thunberg Spirea*). Semi-dwarf sort with very fine foliage and small white flowers. Dense. M
18 to 24 in.\$0.75
2 to 3 ft. 1.00
3 to 4 ft. 1.50

S. vanhouttei. Ever popular variety, producing an abundance of small white flowers in clusters. F
2 to 3 ft.\$0.65
3 to 4 ft. 1.00
3 to 4 ft. heavy 1.50

SYRINGA • Lilac

Our stock of these favorite flowering plants is very complete in both common and French Hybrid varieties. We have a quantity of plants much larger than are listed here and will be pleased to receive your inquiries or a personal inspection.

HYBRID LILACS

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow and bloom when they are even younger. The flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. Here is a list of favorite varieties which are so exquisitely lovely and different that you will want them all in the border as specimens. M

2 to 3 feet. B.R. \$2.25, B&B \$2.75
3 to 4 feet. B.R. 3.00, B&B 3.50
4 to 5 feet. B&B 7.50
5 to 6 feet. B&B 9.00

Larger sizes priced on application
Some specimens in different colors

B.R.—Means material will be dug bare root.

B&B—Means the material will be dug with a ball of earth which is wrapped in burlap to hold soil about roots.

Belle de Nancy. Double satiny rose. 2 to 3 ft.
Capitaine Baltet. A fine, purple variety. Single. 2 to 3 ft.

Chas. Joly. Purple red. One of the best double reds. 2 to 3 ft., 5 to 6 ft., 6 to 8 ft.

Charles X. Single, rich purple-red. 2 to 3 ft.

Ellen Willmott. Large double white. Stocky grower. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Jan Van Tol. Single, fragrant white. Dwarf. 2 to 3 ft.

Jean Mace. Double, bluish mauve. Very good. 2 to 3 ft.

Katherine Havemeyer. Immense double trusses. Mauve pink. 2 to 3 ft.

Lamartine. Single, purplish lilac. Extra large blooms. 2 to 3 ft.

Leon Gambetta. Finest double pink. 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.

Lucie Baltet. A fine single, coppery-old rose, entirely unlike any other Lilac in color. 2 to 3 ft.

Marie Legraye. Single white. 2 to 3 ft.

Mme. Lemoine. Double white of upright growth. 2 to 3 ft., 4 to 5 ft.

Mrs. Edward Harding. Large, full flowers of brightest carmine. 2 to 3 ft.

President Fallieres. Lavender pink. Extremely large flowers. Double. 2 to 3 ft.

President Grevy. Double blue. Very popular. 2 to 3 ft.

President Poincare. A very large, double flowering purplish red on outside, turning to lavender blue as they open. 2 to 3 ft.

Souv. de Ludwig Spaeth. Reddish-purple, single. The best known hybrid Lilac. 2 to 3 ft.

Waldeck-Rousseau. Double, deep violet. 2 to 3 ft.

William Robinson. Double, red to crimson. 2 to 3 ft.

On the Saw Mill River Parkway

LILACS—Continued

S. persica (*Persian Lilac*). A graceful shrub with slender branches and single pale lilac flowers. M

2 to 3 ft.\$1.50

S. vulgaris (*Common Purple Lilac*). Considered by many as fine as any hybrid. Bears large clusters of fragrant purple flowers in May. M

2 to 3 ft.\$1.50

3 to 4 ft. 2.50

4 to 5 ft. 6.00

5 to 6 ft.10.00

5 to 6 ft. extra heavy15.00

3 to 4 ft. 2.50

4 to 5 ft. 5.00

5 to 6 ft. 7.50

STEPHANANDRA flexuosa (*Lace Shrub*). Splendid shrub of erect habit, with cut foliage. Striking at all seasons. M

2 to 3 ft.\$1.00

3 ft. 1.50

SYMPHORICARPOS chenaulti. Pink-berried form of Coralberry. Grows compact and has a better than average foliage. F

2 to 3 ft.\$0.75

3 to 4 ft. 1.50

S. racemosus (*Snowberry*). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillside. F

2 to 3 ft.\$0.75

3 to 4 ft. 1.00

S. vulgaris (*Coralberry*). Bears clusters of small red berries which remain most of the Winter. F

2 to 3 ft.\$0.75

3 to 4 ft. 1.00

VITEX macrophylla. A graceful shrub with attractive spikes of lovely lavender blue flowers. Blooms profusely from July to frost. Dies back in Winter, similar to Buddleia. F

2 yr.\$1.00

VIBURNUMS

Probably comprise more desirable varieties for landscape use than any other family of Shrubs.

V. burkwoodi. Often called an improved Viburnum carlesi, differing in growth, foliage and time of bloom which is earlier. Growth is vigorous and foliage glossy. Flowers creamy white and very fragrant. S

18 to 24 in.\$3.50

2 to 2½ ft. 4.50

V. carlesi (*Fragrant Viburnum*). Most fragrant of all flowering shrubs. A blossom of this delightful shrub will scent an entire room. Fairly dwarf and slow in growth it eventually attains 5 to 6 ft. in height. Blooms are creamy white and borne in considerable profusion. Very scarce. S

15 to 18 in.\$2.50

18 to 24 in. 3.50

2 to 2½ ft. 4.50

2½ to 3 ft. 6.00

V. cassinoides (*Witherod*). Large clusters of white flowers in June precede green berries which change to pink and finally blue-black. Leathery leaves add their touch of crimson and purple in Fall. An exceptionally clean, neat shrub which does well in moist places. F

2 to 3 ft.\$1.25

V. dentatum (*Arrowwood*). Bushy shrub with white flowers and blue berries; fine for shade. F

2 to 3 ft.\$1.00

3 to 4 ft. 1.50

4 to 5 ft. 2.50

5 to 6 ft. 5.00

V. dilatatum (*Linden Viburnum*). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries which turn the entire shrub red. M

2 to 3 ft.\$1.50

3 to 4 ft. 2.50

4 to 5 ft. 4.00

5 to 6 ft. 7.50

Heavy specimens. Priced on selection

V. opulus (*Highbush Cranberry*). White flowers, followed by Cranberry-like fruit which persists all Winter. Rapid grower. F

2 to 3 ft.\$1.00

4 to 5 ft. 2.50

VIBURNUM OPULUS

V. sieboldi. Vigorous shrub, attaining great size. Berries pink, changing to black. Large, deep green, leathery leaves. F

2 to 3 ft.\$1.25

3 to 4 ft. 2.00

4 to 5 ft. 3.50

V. theiferum. Large compound white flowers followed by huge clusters of brilliant scarlet berries. Probably the most showy of all Viburnums when in berry. M

3 to 4 ft.\$1.50

4 to 5 ft. 2.50

5 to 6 ft. 5.00

V. tomentosum (*Single Japanese Snowball*). White flowers in profusion, followed by red berries. Foliage red in Fall. M

18 to 24 in.\$1.00

2 to 3 ft. 1.25

3 to 4 ft. 1.75

3 to 4 ft. heavy 2.50

4 to 5 ft. 3.50

Here Is the Answer to Your Gift Problems!

LIVING PLANTS

JUST arrange for a gift certificate redeemable at any one of over 1100 nurseries (members of the American Association of Nurserymen) throughout the United States of America.

This simple way of sending a gift will clear away your perplexing problems of what to give and at the same time bring lasting joy through the medium of a living plant or tree.

It is easy to obtain—just give us the name and address of the person to receive the certificate, YOUR name and address and enclose a check or money order for any amount you choose to give. (Minimum Gift Certificate is \$3.00 and all certificates are redeemable at any time or planting season up to one year from date of issue.) We will mail the Gift Certificate to you or directly to the recipient, whichever you prefer. In either case we send you a copy for your records.

You have no shipping costs. No precious time is lost—especially in those last-minute situations. There are no crowds to battle. There is no need to ponder WHAT to select; the recipient makes his own choice. He has the fun of going to any nursery member of the American Association of Nurserymen (you will see the A.A.N. seal prominently displayed) to select just

the plant material he wants. It might be glorious Flowering Trees or Shrubs; delicious Fruits, rich Evergreens, or a welcome Shade Tree, etc.

A plant or tree is always in good taste, always welcome and suitable for every occasion—Easter, Birthdays, Anniversaries, Weddings, Mother's Day, Father's Day, Christmas, for a hostess gift, to mention a few.

For those in our own immediate area, we have, in addition, our own gift certificate redeemable only at our nursery. This Rosedale certificate enables you to select the plant to be given and omits mention of a stipulated amount, should you prefer to handle it in that way. However, the Rosedale certificate is so worded that either the item or the amount given may be stated.

More and more people are using this intriguing way of remembering—and being remembered.

WEIGELA, Bristol Ruby (*New*) (**Improved Eva Rathke**). Bristol Ruby is a better Eva Rathke. Hardier and more vigorous, developing to a shapely shrub. Color is a soft ruby red shading to garnet crimson. F
 2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00 | 4 to 5 ft.\$3.00

W. Eva Rathke. Slower growing than other Weigelas. Dark crimson flowers in profusion. Generally a small shrub. F
 2 to 3 ft.\$1.00

W. Feerie. A fine pink Weigela, less coarse than other varieties. This graceful shrub produces an enormous profusion of charming flowers a week or so earlier than Rosea. A most delightful soft pink. F
 2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00

W. floribunda. Extremely vigorous, bright crimson flowers. Generally a large shrub. F
 2 to 3 ft.\$0.75 | 3 to 4 ft.\$1.00 | 4 to 5 ft.\$1.50

WEIGELA—Continued

W. Gustav Mallot. A fine red variety of much sturdier growth than Eva Rathke, growing somewhat larger. Highly recommended. F
 2 to 3 ft.\$1.50
 3 to 4 ft. 2.00

W. rosea. Medium growth with rose-colored flowers in June. F
 2 to 3 ft.\$0.75
 3 to 4 ft. 1.00
 4 to 5 ft. 1.75

WEIGELA, BRISTOL RUBY

PHILADELPHUS MINNESOTA SNOWFLAKE

Trees and Shrubs Attractive to Birds

In response to the growing interest in plants which attract birds, we make the following suggestions, keeping in mind the fact that nesting sites as well as fruits are important:

<i>Ampelopsis quinquefolia</i>	<i>Virginia Creeper</i>
<i>Ampelopsis tricuspidata</i>	<i>Boston Ivy</i>
<i>Benzoin aestivale</i>	<i>Spicebush</i>
<i>Berberis thunbergii</i>	<i>Japanese Barberry</i>
<i>Cornus florida</i>	<i>Flowering Dogwoods</i>
<i>Elaeagnus angustifolia</i>	<i>Russian Olive</i>
<i>Euonymus</i>	<i>Corkbark</i>
<i>Evergreens</i>	All evergreen trees for nesting
<i>Hypericum prolificum</i>	<i>St. Johnswort</i>
<i>Ilex verticillata</i>	<i>Winterberry</i>
<i>Juniperus hibernica</i>	<i>Irish Juniper</i>
<i>Juniperus virginiana</i>	
<i>Lonicera tatarica</i>	<i>Tatarian Honeysuckle</i>
<i>Malus</i>	<i>Flowering Crabs, in variety</i>
<i>Sorbus aucuparia</i>	<i>Mountainash</i>
<i>Symphoricarpos</i>	<i>Coralberry and Snowberry varieties</i>
<i>Viburnum dentatum</i>	<i>Arrowwood</i>
<i>Weigela</i>	<i>In variety</i>

VIBURNUM THEIFERUM—Bottom

VIBURNUM BURKWOODII

EVERGREEN SHRUBS

The BROADLEAVED EVERGREENS

This group of "double-duty" plants—having both evergreen qualities and bearing the most beautiful flowers—offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Increasing numbers of these Evergreen Shrubs are used each year to provide colorful as well as evergreen effects in the well-planned landscape planting. This applies not only to the flowers borne but also to brilliant color changes in the foliage as occurs with *Leucothoe* and many others in the Fall.

We have an unusually fine selection of these native American plants and to assist you in a general way we make the following suggestions as to their usage. However, we cannot stress too strongly that these are merely *suggestions* and not their sole uses—nor are all materials usable in these ways included in this short list.

FOR FULL SHADE:

Rhododendron maximum.....*Rosebay*
Kalmia latifolia.....*Mountain Laurel*
Ilex glabra.....*Inkberry*
Leucothoe catesbaei.....*Drooping Leucothoe*

FOR PARTIAL SHADE:

Azaleas.....*Varieties*
Abelia grandiflora, *Glossy Abelia* *Rhododendron catawbiense*

FOR FULL SUN:

Cotoneaster—*Varieties* *Ilex opaca*, *The "Christmas" Holly*
Ilex bullata *Daphne cneorum*

ABELIA GRANDIFLORA

SPREADING VARIETIES (Low growing and growing as much or more horizontally as vertically):

Abelia grandiflora *Cotoneaster horizontalis*
Azalea hinodegiri *Daphne cneorum*
Azalea, J. T. Lovett *Ilex bullata*
Azalea kurume, Snow *Pieris floribunda*
Cotoneaster apiculata

HEDGES:

Berberis julianae
Buxus suffruticosa
Ilex bullata
Ilex crenata
Ilex rotundifolia
Pieris japonica

As a general guide to planting these balled and burlapped plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

BERBERIS JULIANAE

ABELIA

Abelia grandiflora (*Glossy Abelia*). A splendid half evergreen shrub bearing dainty, bell-shaped pink flowers from July until frost. The glossy foliage will persist all Winter in a protected spot. M

18 to 24 in.....	\$2.50
2 to 3 ft.....	3.00
3 to 4 ft.....	4.00

AZALEAS

Azalea amoena (*Evergreen*). Small, boxlike leaves on a neat, compact plant of rounded form. Leaves warm bronze hue in Winter. Covered with rosy purple flowers in Spring. Very hardy. S

Large Specimens Only

4½ to 5 ft. spread.....	\$35.00 each
5 to 6 ft. spread.....	45.00 each

Azalea hinodegiri (*Evergreen*). Probably the best of the Evergreen Azaleas for color, foliage and form. A low, compact plant with handsome, waxy foliage which turns bronze in Winter. The flowers are clear fine red, borne in great profusion in May. Splendid for facing Laurel and Rhododendron as mass planting. This stock is thick and compact, and loaded with flower buds. May need some Winter protection in exposed locations or north of the nurseries. S

10 to 12 in....	\$2.50	18 to 24 in....	\$7.50
12 to 15 in....	4.00	3½ to 4 ft.....	25.00
15 to 18 in....	5.00	4 to 4½ ft.....	30.00
4½ to 5 ft.....	\$35.00		

Azalea indica alba (*Half Evergreen*). Also called Snow Azalea. A fine combination with Hinodegiri, as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white. S

12 to 15 in....	\$3.75	2 to 2½ ft....	\$10.00
15 to 18 in....	4.75	2½ to 3 ft....	12.00
18 to 24 in....	6.00	3 to 3½ ft....	15.00

Azalea J. T. Lovett. A beautiful, very low-growing, completely evergreen Azalea. The single, bright pink flowers are larger and appear about a month later than A. hinodegiri. Very profuse bloomer. S

15 to 18 in.....	\$5.00
------------------	--------

Azalea kaempferi (*Torch Azalea*). Half Evergreen. Not completely evergreen, but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon pink in varying shades. M

15 to 18 in....	\$4.75	18 to 24 in....	\$6.00
2 to 2½ ft.....	\$7.50		

Azalea kurume, Bridesmaid. The glowing salmon-pink flowers are produced in large clusters. Small, glossy green foliage. M

15 to 18 in....	\$5.00	18 to 24 in....	\$7.50
-----------------	--------	-----------------	--------

Azalea kurume, Coral Bells. Evergreen. A most free-flowering Azalea with delightful coral-pink flowers, shading deeper in center. May-blooming. This variety may need some Winter covering in certain locations. M

10 to 12 in....	\$2.75	15 to 18 in....	\$5.00
18 to 24 in.....	\$7.50		

Azalea kurume, Firefly (*Evergreen*). A full, compact grower bearing large, crimson-red flowers. Hardy in this area. M

15 to 18 in....	\$5.00	18 to 24 in....	\$7.50
-----------------	--------	-----------------	--------

Azalea kurume, Snow (*Evergreen*). Purest white, glistening flowers are borne profusely in clusters. Handsome, glossy green foliage. An excellent variety for accenting your other plantings, whether used singly or in groups. Low growing. F

12 to 15 in.....	\$4.00
------------------	--------

Azalea poukhanense (*Half Evergreen*). A broad plant of finest form with extremely large, lavender-blue, sweetly-scented blooms. Growth is modest and it is positively hardy, almost never losing a flower bud. We cannot recommend Azalea poukhanense too highly. Our stock is large and well grown. M

18 to 24 in....	\$5.00	3 to 3½ ft....	\$15.00
2 to 2½ ft....	6.00	4 to 5 ft.....	25.00
2½ to 3 ft....	10.00	5 to 6 ft.....	35.00

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which are not evergreen but which are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendron with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms late usually mid-June, and the blooms have a delightful fragrance. A most desirable variety for mass plantings of native material. M

15 to 18 in....	\$2.75	2 to 2½ ft....	\$5.00
18 to 24 in....	4.25	2½ to 3 ft....	7.50
3 to 4 ft. heavy....	\$12.00		

Azalea calendulacea (*Flame Azalea*). A brilliant orange and yellow flowering native shrub. Tall but slow growing, free flowering. F

15 to 18 in....	\$2.75	2½ to 3 ft....	\$7.00
18 to 24 in....	3.75	3 to 4 ft....	10.00
2 to 2½ ft....	5.00	4 to 5 ft....	12.00

Azalea mollis Hybrids (*Chinese Azaleas*). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers, which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly. M

15 to 18 in....	\$3.75	18 to 24 in....	\$4.50
-----------------	--------	-----------------	--------

Azalea mucronulata. A most worthwhile variety for planting in front of Forsythia. Blooms at same time and the color combination is most striking. Flowers are lavender-pink. F

18 to 24 in....	\$5.00	2 to 2½ ft....	\$6.00
-----------------	--------	----------------	--------

Azalea nudiflora (*Pinxterbloom*). Wild Honeysuckle. This lovely native is known to all who have tramped the woodlands in May. Fragrant pink. F

18 to 24 in....	\$2.75	3 to 4 ft.....	\$6.00
2 to 3 ft.....	4.00	4 to 5 ft.....	10.00

Azalea nudiflora rosea (*Downy Pinxter Azalea*) (*Deciduous*). Sometimes confused with A. nudiflora but is hardier and deeper in coloring. Very fragrant, rosy-pink flowers. Attains 9 or 10 ft. in height, but is usually seen about 3 ft. Prefers half-shade and grows in either acid or lime soil. F

2 to 2½ ft....	\$4.00	3 to 3½ ft....	\$7.50
2½ to 3 ft....	5.00	3½ to 4 ft....	10.00
4 to 5 ft.....	\$15.00		

AZALEA MOLLIS HYBRIDS

Azalea schlippenbachii (*The Royal Azalea*) (*Deciduous*). Pure, Apple-pink flowers on a hardy plant attaining at maturity over 6 ft. in height but may be kept to smaller size by pruning. The beautiful foliage turns orange-scarlet in the Fall. M

15 to 18 in....	\$3.75	18 to 24 in....	\$4.50
-----------------	--------	-----------------	--------

Azalea vaseyi (*Pinkshell Azalea*). Shell-pink flowers in May. Blossoms cover the entire plant and make a striking picture before foliage has developed. A most lovely type. F

18 to 24 in....	\$4.50	3 to 3½ ft....	\$10.00
2 to 2½ ft....	6.00	3½ to 4 ft....	12.00
2½ to 3 ft. hvy.	7.50	4 to 5 ft....	15.00

Azalea viscosa (*Swamp Azalea*). A slender, upright Azalea with heavily scented pink or white flowers in July well after the leaves appear. Thrives in moist places from Maine to South Carolina and attains 4 to 8 ft. in height. F

3 to 4 ft.....	\$6.00	4 to 5 ft.....	\$7.50
5 to 6 ft.....	\$10.00		

BERBERIS

B. julianae (*Wintergreen Barberry*). Evergreen. Yellow flowers and purple fruit. Good ornamental for border, foundation or hedge. M

15 to 18 in....	\$3.50	18 to 24 in....	\$4.50
2 to 2½ ft.....	\$6.00		

BERRIES OF COTONEASTER

COTONEASTER

The large family of Cotoneasters has many members of high value for landscape plantings. Cotoneasters grown in an open situation generally prove to be hardy throughout northern United States. They vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit, more than floral beauty, for decorative effect. They do not transplant as readily as some shrubs and must be carefully handled during the transplanting operation. The generally interesting branching habit, both the low sprawly types and those with arching branches are decorative all year.

C. apiculata. A low spreading form similar to horizontalis. More compact grower with slightly more arching branches. Unexcelled rock garden variety. S

10 to 12 in....	\$2.25	12 to 15 in....	\$2.75
-----------------	--------	-----------------	--------

C. francheti. Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September; foliage grayish green. F

15 to 18 in....	\$2.50	18 to 24 in....	\$3.50
2 to 3 ft.....	\$5.00		

C. horizontalis. One of the most effective fruiting shrubs for the rockery. Its low branches, almost horizontal, bear a profusion of bright red berries. S

7 in. pots.....	\$2.75
-----------------	--------

DAPHNE

D. cneorum (*Rose Daphne*). Rose Daphne is a dainty little bush 1 to 2 ft. high with gray green foliage, each shoot tipped with clusters of clear rose pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil. Must have full sun and loose soil which never becomes caked. S
8 to 10 in.\$1.75 | 12 to 15 in.\$2.50
15 to 18 in.\$3.50

ILEX • The Hollies

There is something startling about the sight of a full-grown Holly tree aglow with red berries. Our imaginations are stirred by this familiar species not only because of its association with Christmas spirit and cheer, but by its crisp, dominant, year-round personality. Only one of this group looks anything like the tree Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

I. bullata (*Boxleaf Holly*). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high, with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M
15 to 18 in.\$4.75 | 18 to 24 in.\$6.00
2½ to 3 ft.\$9.00

I. crenata. A rapid growing, dense evergreen bush with deep green, Boxwood-like foliage. A permanent plant of real character. F
18 to 24 in.\$6.00 | 2 to 2½ ft.\$7.50
3 to 3½ ft.\$10.00

I. glabra (*Inkberry*). A bushy, upright growing very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall; useful for shady and moist locations. M
15 to 18 in.\$2.50 | 18 to 24 in.\$3.50
2 to 2½ ft.\$4.75

I. opaca (*American Holly*). The well known Christmas Holly, with red berries. Grows to a large tree but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly available and all plants have been trained and transplanted frequently. M
2 to 3 ft.\$6.50
3 to 4 ft.9.50
5 to 6 ft.18.00
6 to 7 ft.\$25.00 to 35.00
7 to 8 ft.35.00 to 45.00
8 to 9 ft.45.00 to 60.00

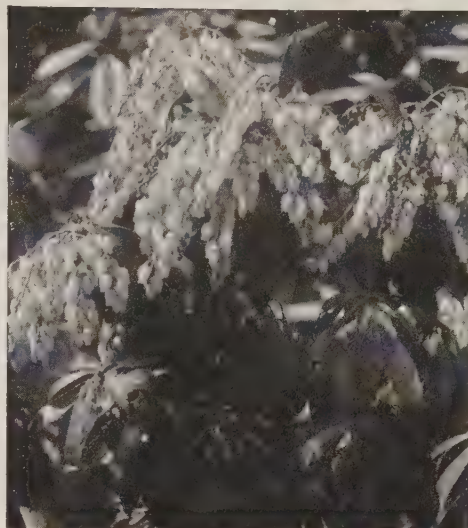

I. rotundifolia (*Roundleaf Holly*). Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety which is real hardy in Westchester. M
15 to 18 in.\$4.50 | 2 to 2½ ft.\$7.50
18 to 24 in.6.00 | 2½ to 3 ft.9.00

KALMIA Mountain Laurel

K. latifolia (*Mountain Laurel*). The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil. M
15 to 18 in.\$2.75 | 2 to 2½ ft.\$4.75
18 to 24 in.3.50 | 2½ to 3 ft.6.00
3 to 4 ft.\$9.00

LEUCOTHOE

L. catesbaei (*Drooping Leucothoe*). Most beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. Prices are low for bushy plants. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks inside the home and the cutting improves the plant. M
15 to 18 in.\$2.50 | 18 to 24 in.\$4.00

PIERIS JAPONICA

PIERIS

P. japonica (*Andromeda*). Hardy Laurel-like leaved plant of unequalled value in a broadleaf planting. Glossy leaves of various shades with lovely sprays of Lily-of-the-valley-like clusters of white flowers in very early Spring. M
15 to 18 in.\$4.00 | 2 to 2½ ft.\$7.50
18 to 24 in.5.00 | 2½ to 3 ft.9.00

P. floribunda (*American Andromeda*). Foliage similar in size and pattern to *P. japonica* but flowers differ, growing in showy, upright clusters rather than drooping. Very much in demand for its habit of lateral growth into a handsome mound of rich green retained throughout the Winter. M
12 to 15 in.\$3.75 | 15 to 18 in.\$5.50

PYRACANTHA

P. coccinea lalandi (*Firethorn*). Semi-evergreen. Strong, slender branches rising from the ground develop stubby side growths upon which are hung the numerous orange red berries. Amazingly beautiful in the Fall, especially when planted against a gray stone background. S
5 in. pots.\$2.50 | 6 in. pots.\$3.50
2½ to 3 ft.\$6.00

RHODODENDRONS

Rhododendrons require little care after they become established except possibly some judicious pruning to keep them full and bushy and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil which is moist but well-drained. (They dislike "wet feet".) They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

R. carolinianum. A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose pink bloom. A great favorite. S
15 to 18 in.\$3.25 | 2½ to 3 ft.\$8.00
18 to 24 in.5.00 | 3 to 4 ft.12.00
2 to 2½ ft.6.50 | 4 to 5 ft.\$20.00-30.00

R. catawbiense. A native, free-flowering variety, the parent of most hybrids. Will grow in any soil that is free from lime, is very hardy, and needs little attention. Large, round clusters of deep rosy purple flowers appearing in May or June, just after *R. carolinianum*. Well budded plants. M

Bushy clumps: | 2½ to 3 ft.\$7.50
15 to 18 in.\$3.75 | 3 to 3½ ft.9.00
18 to 24 in.4.25 | 4 to 5 ft.20.00
2 to 2½ ft.5.00 | 5 to 6 ft.35.00
6 to 7 ft.\$45.00

RHODODENDRONS—Continued

R. maximum (*Rosebay*). Our native Rhododendron, with white and light pink flowers. Nursery-grown plants. M

12 to 24 in.\$1.75 each, \$150.00 per 100

RHODODENDRON HYBRIDS

Although generally a scarce item this year, we are very fortunate to be able to offer the most extensive and healthiest stock of Hybrid Rhododendrons we have ever had. These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids—that is, grafted stock—that the gorgeous array of colors in Rhododendrons in June are obtained. They are noted, too, for their superior foliage. M

We offer only varieties which are hardy in this section.

15 to 18 in.\$7.00	2 to 2½ ft.\$12.50
18 to 24 in.9.00	2½ to 3 ft.17.50
3 to 3½ ft.\$20.00	

Larger specimens are available and are priced on selection.

America. Large, deep red flowers. Very hardy.

Caractacus. A fine rich purple-crimson flower of well-known variety. Blooms late.

Catawbiense album. Large blush blooms changing to purest white. A hardy, compact variety. Late.

Catawbiense Boursault. Lilac-purple. Exceptionally sturdy and well-shaped, growing somewhat bushy. Early to midseason.

Catawbiense grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous. A fine midseason variety.

Dr. H. C. Dresselhuys. Glittering crimson blooms of unusual size. One of best reds and one of the best hybrids. Midseason.

Dr. V. H. Rutgers. An unusual red, fringed variety—midseason.

Edward S. Rand. Rich scarlet with dark eye. A unique addition to your hybrid collection.

F. D. Godman. Rich red flecked with deeper red. Midseason.

Ignatius Sargent. Light clear red, exceptionally large trusses. Vigorous and rapid growing. Long a favorite. Late.

Lee's Dark Purple. Deep rich purple. Hardy, slower growing variety. Late.

Mrs. P. den Ouden. A beautiful new red variety. Hardy. Midseason.

Nova Zembla. A very good red accented by handsome dark green foliage. A dense grower.

Parson's Gloriosum. A lovely Lilac-pink. Hardy. Late.

Prof. F. Bettex. A fine red. Hardy. Late.

Roseum elegans. A brilliant rose-pink. Handsome foliage. Vigorous and hardy—an altogether outstanding Hybrid. Midseason.

Vanderbrocke. A crimson-red. Hardy. Late.

Vanderhoop. Carmine-rose. Hardy. Late.

Vanweerden Poeiman. A red. Hardy. Late.

Our analysis of sales records shows that the greatest gain in popularity of plant materials has been in the use of Broad-leaved Evergreens. These Evergreen Shrubs are in increasing demand for beautifying the small as well as the large home grounds. If you want a modern planting, don't overlook the possibilities of these Flowering Evergreens.

KALMIA (Mountain Laurel)

Hardy Climbing Vines and Ground Covers

Our cheery, reliable Vines—some evergreen, many flower-bearing—transform bare walls and fences and fill in and soften new undeveloped plantings, creating a feeling of warmth, beauty and permanence. To aid you in starting a quick vine growth, we have preplanted in pots most of our varieties and many will climb 6 to 10 feet the first season.

For planting Vines, please see directions for planting bare root material given at the beginning of the Shrub list.

Ground Covers:

Euonymus erecta

Lonicera japonica halliana...Honeysuckle

Pachysandra terminalis...Japanese Spurge

Vinca minor...Myrtle

See Roses for Trailing Varieties

Fast-growing Vines:

Ampelopsis quinquefolia

Bignonia radicans...Trumpet Creeper

Celastrus orbiculata

Lonicera japonica halliana

Medium Fast-growing Vines:

Ampelopsis veitchi...Boston Ivy

Euonymus radicans

Hedera helix...English Ivy

Wisteria chinensis...Wisteria

AKEBIA quinata. A very graceful rapid growing vine. The foliage is extremely attractive and the rosy purple flowers in May are followed by ornamental fruit. F

2 yr. 90c. each, \$10.00 per doz.

AMPELOPSIS quinquefolia (Virginia Creeper).

Vigorous, handsome Woodbine—particularly striking with its autumnal coloring. Especially recommended for walls and fences. F

2 yr. 75c. each, \$7.50 per doz.

A. tricuspidata (veitchi) (Boston Ivy). Closely clinging vine with medium sized foliage turning red in Autumn. Its rapid growth and closely clinging habit make it most popular for brick, stone or stucco walls. M

2 yr. 90c. each, \$10.00 per doz.

BIGNONIA radicans (Trumpet Creeper). Orange-scarlet, trumpet-shaped flowers in clusters from July to September. Rapid grower but does not flower young. Must be supported. F

2 yr. \$1.00 each, \$10.00 per doz.

B. Mme. Galen. An especially fine variety similar to above but with very large, striking salmon-red trumpets. We highly recommend this decorative vine. M

2 yr. \$1.25 each

CELASTRUS orbiculata (Oriental Bittersweet). Well known native Bittersweet. Splendid for fences and rocks or will make a shrub. The Oriental variety differs from the native only that it bears more berries. F

2 to 3 ft. \$1.00 each, \$10.00 per doz.

CLEMATIS jackmani (Purple Clematis). Large, purple single flowers from June to August. Striking. M

1 yr. pot grown. 90c. each, \$10.00 per doz.

6 in. pots. \$1.25 each

C. paniculata (Old-fashioned Clematis). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen, and the feathery seeds are also decorative. Belongs to the home. F

2 yr. 75c. each, \$7.50 per doz.

3 yr. heavy potted. \$1.25 each

EUONYMUS radicans. Self-clinging evergreen vine; especially good for covering low stone walls and can be used for underplanting of evergreens. M

12 to 18 in. \$1.00 each, \$10.00 per doz.

E. erecta. A shrubby vine useful for foreground foundation planting or ground cover. Completely evergreen. M

15 to 18 in. \$1.75 | 18 to 24 in. \$2.50

E. radicans vegetus (Evergreen Bittersweet). Low spreading shrub, but will climb high on masonry walls. M

12 to 15 in. 75c. each, \$7.50 per doz.

15 to 18 in. \$1.25 each

POLYGONUM, Silver Lace

BIGNONIA RADICANS

EVERGREEN BITTERSWEET

CLEMATIS JACKMANI

WISTERIA

HEDERA helix (English Ivy). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover plant in mass under trees or other shady or semi-shady locations. M

3 in. pots. 40c. each, \$4.00 per doz.

4 in. pots, heavy plants. 75c. each, \$7.50 per doz.

LONICERA japonica halliana (Honeysuckle). Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas. F

2 yr. 35c. each, \$3.50 per doz., \$25.00 per 100

PACHYSANDRA terminalis (Japanese Spurge). Most popular evergreen ground cover plant. Spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M

Rooted Cuttings. \$5.00 per 100, \$45.00 per 1000

2½ in. pots. \$15.00 per 100

POLYGONUM auberti (Chinese Fleecyvine). Slender, vigorous vine for arbor, trellis, or fence. Curious silver-white flowers in tremendous profusion. F

2 yr. field grown. 90c. each, \$10.00 per doz. | 6 in. pots. \$1.25 each

VINCA minor (Myrtle). Dense evergreen ground cover. Small, dark, green leaves on slender trailing branches. Blue flowers on late Spring. M

2-yr. field-grown, \$2.50 per doz., \$20.00 per 100

V. Bowles Var. Similar to V. minor in form and evergreen habit of growth. Lavender-blue flowers all Summer. S

2 yr. field-grown, \$4.50 per doz., \$35.00 per 100

WISTERIA sinensis (Chinese Wisteria). Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple. M

2 yr. \$1.50 each | 5 yr. \$4.00 each

4 yr. 2.50 each | XX Heavy. 7.50 each

SHADE TREES

To have healthy, sturdy Shade Trees, it is necessary for the trees to grow in soil suitable to their needs, to be transplanted frequently to improve root systems and to be pruned in order to encourage shapely growth. Here at Rosedale we do these things systematically so that you will receive fine, sturdy stock. In addition, we are particularly careful to plant our trees far enough apart in wide-spaced rows to permit lateral as well as upright growth.

We grow only those varieties which will thrive in this climate.

As an aid to your planning, we again make a few suggestions as to classifying these trees according to characteristics which when known might be helpful.

FAST GROWING

Acer platanoides (Norway Maple)
Acer saccharum (Sugar Maple)
Platanus occidentalis (American Plane)
Salix Varieties (Willow)
Gleditsia inermis (Thornless Honeylocust)

FOR HEAVY SHADE

Acer platanoides (Norway Maple)
Acer saccharum (Sugar Maple)
Fagus americana (American Beech)
Fagus sylvatica (European Beech)
Platanus occidentalis (American Plane)
Quercus rubra (Red Oak)

FOR LIGHT SHADE

Betula, Varieties of (Birch)
Gleditsia inermis (Thornless Honeylocust)
Salix, Varieties of (Willow)

FOR

BRILLIANT FALL COLORING

Acer saccharum (Sugar Maple). Red and yellow.
Liquidambar (Sweetgum). Red and yellow.
Nyssa sylvatica (Sourgum). Red.
Quercus palustris (Pin Oak). Red and yellow.
Quercus rubra (Red Oak). Red.

B&B means "Balled and Bur-lapped" where this is not indicated, trees will be dug bare root. If it is desired that they be dug B&B, an additional charge will be made.

PLANTING BARE ROOT MATERIAL

1. Plant at once digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see directions on page 24

ACER • Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

Palmatum atropurpureum (Redleaved Japanese Maple). A comparatively dwarf Maple, slow in growth and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well shaped. All B&B. S

18 to 24 in. \$7.50	3 to 3½ ft. \$15.00
2 to 2½ ft. 10.00	3½ to 4 ft. 20.00
2½ to 3 ft. 12.00	4 to 5 ft. 25.00

Palmatum dissectum (Cutleaf Japanese Maple). Very dwarf form with finely cut purple red leaves. Very graceful and a real treasure when fully developed. All B&B. S

18 to 24 in. \$7.50	2 to 2½ ft. \$10.00
5 to 6 ft. specimens. \$35.00	

Platanoides (Norway Maple). Foremost of the Maples because of its regular outline, widespreading branches, and deep green foliage which is retained after the first heavy frosts. Becomes a good shade tree quickly. F

1¾ to 2 in. cal. \$7.50	2½ to 3 in. cal. \$15.00
2 to 2½ in. cal. 12.00	3 to 3½ in. cal. 18.00
3½ to 4 in. cal. 25.00	
4 to 4½ in. cal., B&B. \$45.00	

Larger sizes priced on application

Platanoides schwedleri nigra (Norway Maple, Crimson King, Patent No. 735). Crimson King is a beautiful form of Schwedler Maple originated in Europe. It is brilliant crimson all through the Summer months. Crimson King has been under observation in America for ten years and has kept its brilliant coloring all through the season. F

6 to 8 ft. \$10.00

Saccharum (Sugar Maple). A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall. F

1¾ to 2 in. cal. \$9.00	2½ to 3 in. cal. \$18.00
2 to 2½ in. cal. 15.00	3 to 3½ in. cal. 25.00
3½ to 4 in. cal. \$35.00	

BETULA • Birch

Alba (European White Birch). Very graceful habit and creamy white bark even in the young trees. All B&B. M

7 to 8 ft. \$6.00	10 to 12 ft. \$12.00
8 to 10 ft. 7.50	12 to 14 ft. 17.50

Populifolia (Gray or Silver Birch). Generally in clumps of two or more white trunks rising gracefully from the ground. The small leaves quiver at the slightest breeze. All B&B. M

10 to 12 ft. \$12.00
10 to 12 ft. heavy. 17.50
12 to 14 ft. 25.00

Larger plants priced on selection

FAGUS • Beech

Americana (American Beech). Grows slowly, but a handsome native, whose clean, gray-barked trunks are familiar in light woods. Prefers well-drained soil and Spring planting. All B&B. M

10 to 12 ft. \$40.00	12 to 14 ft. \$65.00
14 to 16 ft. \$80.00	

Sylvatica (European Beech). For screen or hedge, this Beech is ideal among deciduous trees. It gives nearly as much screen in Winter as in Summer, owing to the fact that the dead leaves persist in Winter. As it bears the shears well, it may be kept within bounds for hedge purposes and grows as dense as any hedge. All B&B. M

6 to 7 ft. \$12.50	7 to 8 ft. \$17.50
-------------------------	-------------------------

Sylvatica riversi (Rivers Purple Beech). This tree is similar to the European Beech except for its beautiful purple foliage. Handsome and dignified. All B&B. S

8 to 10 ft. \$35.00	10 to 12 ft. \$45.00
--------------------------	---------------------------

A few larger sizes priced on selection

GLEDITSIA

Gleditsia inermis (Thornless Honeylocust). This is a truly lovely tree. Its towering, spreading canopy of lace-like foliage is the epitome of light and airy grace. Freedom from insect pests is only one of its outstanding characteristics. Not entirely free from thorns but many less than the older form Triacanthos. Hardy and long lived. This tree is the answer to problem of planting something different in a shade tree. F

8 to 10 ft. \$7.50	2 to 2½ in. cal. \$15.00
10 to 12 ft. 10.00	2½ to 3 in. cal. 25.00
1½ to 2 in. cal. 10.00	3 to 3½ ft. 35.00

LIQUIDAMBAR

Styraciflua (Sweet Gum). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. The star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. S

1½ to 2 in. cal. \$12.00	2 to 2½ in. cal. \$16.00
2½ to 3 in. cal. \$20.00	

PLATANUS

Platanus occidentalis (American Plane). This grand native American tree is sometimes called Buttonball or Sycamore. It attains great size and spread with open-branching and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it highly for a rapid growing shade tree in well drained soil. F

1½ to 2 in. cal. \$10.00	2 to 2½ in. cal. \$12.00
-------------------------------	-------------------------------

WHITE BIRCH

QUERCUS • Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their reputation as slow growers is not warranted, for, when once established, they will make a yearly growth equal to that of almost any other species.

Palustris (Pin Oak). A superb and distinct tree. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. Jack Frost has never shown greater skill than in the coloring he produces in Pin and Scarlet Oaks. M

1 to 1½ in. cal., 6 to 8 ft. \$5.00
1½ to 2 in. cal. 10.00
2 to 2½ in. cal. 15.00
2½ to 3 in. cal., B&B. 27.50

Rubra (Red Oak). A fine, all-round tree with wide-spreading branches. Colorful Fall foliage remains on all Winter. M

1½ to 2 in. cal. \$10.00	2 to 2½ in. cal. \$15.00
2½ to 3 in. cal. B&B. \$27.50	

Larger specimens priced on selection

SALIX • Willow

Babylonica (Weeping Willow). Long, stringy branches droop vertically to the ground, and with the narrow, light green leaves create a soft, velvety texture. Grows rapidly especially when close to water. F

5 to 6 ft. \$2.00 each, \$17.50 per 10
6 to 8 ft. 3.50 each, 30.00 per 10
8 to 10 ft. \$5.00 10 to 12 ft. \$7.50

Niobe (Golden Twig Weeping Willow). F

5 to 6 ft. \$2.00 each, \$17.50 per 10
6 to 8 ft. \$3.50 8 to 10 ft. \$5.00

Salamoni (Salamon Weeping Willow). Similar to Babylonica, but less pendulous—ascending branches and pendulous branchlets. Sturdier than Babylonica. F

6 to 8 ft. \$2.75

FLOWERING TREES

The loveliness of a Flowering Tree is a constant delight to the beholder. At the height of the blooming period; when in full leaf; when fruiting, as so many Flowering Trees do; and during the brilliance of Autumnal coloring, they are always an exceptionally fine addition to the landscape. A solid investment on the part of the homeowner, for they increase in beauty as the years pass.

All the varieties listed below are hardy and carefully chosen to give complete satisfaction, no matter whether planted as lawn specimens, or in the border, planted among evergreens or espaliered on bare wall surfaces. Although complete individual descriptions are given, we group some of these Flowering Trees in order to aid you in your planning and selection.

PLANTING BARE ROOT MATERIAL:

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see directions on page 24 of Evergreens

COLORFUL FRUIT:

Malus.....Flowering Crabs, all varieties
Crataegus.....Hawthorn
Sorbus aucuparia.....Mountainash
Cornus.....Flowering Dogwood

SPREADING:

Cornus florida
Magnolia soulangeana
Magnolia stellata
Malus atrosanguinea.....Carminc Crab
Malus floribunda
Malus ochmeria meyeri
Malus sargentii
Prunus Beni Higan
Prunus serrulata pendula

UPRIGHT:

Crataegus phaenopyrum...Washington Thorn
Laburnum vossii.....Golden Chain
Malus hopa
Prunus Naden.....Flowering Cherry
Prunus Paul Wihlert.....Flowering Cherry
Prunus Kwanzan.....Flowering Cherry

CERCIS

(Redbud or Judas-tree)

Canadensis. This is a large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. A picturesque tree in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. Best transplanted when young. We offer the following fine stock for easy transplanting. M
5 to 6 ft.\$5.00 | 6 to 7 ft.\$7.50

CRATAEGUS OXYACANTHA SPLENDENS

CERCIS (Redbud)

CORNUS • Dogwood

Florida (White Dogwood). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green turning a brilliant red in Autumn. M
3 to 4 ft.\$3.00 | 8 to 9 ft.\$20.00
5 to 6 ft. 9.00 | 10 to 12 ft. 25.00
6 to 7 ft.12.00 | 12 to 14 ft. 40.00
7 to 8 ft.15.00 | 14 to 16 ft. 60.00

Florida rubra (Pink or Red Dogwood). Similar to our native White Dogwood in habit and form but with masses of pink flowers. Pink Dogwoods are extremely scarce and all sizes may not be available. M
2 to 3 ft.\$5.00 | 5 to 6 ft.\$15.00
3 to 4 ft. 7.50 | 6 to 7 ft. 18.00
4 to 5 ft.10.00 | 7 to 8 ft. 22.50
8 to 9 ft.\$30.00

Kousa (Kousa Dogwood). While flowers borne after the leaves come out. Large, Strawberry-like crimson fruit. M
4 to 5 ft.\$7.50 | 7 to 8 ft.\$15.00
5 to 6 ft. 9.00 | 8 to 10 ft. 20.00
10 to 12 ft.\$30.00

CRATAEGUS • Hawthorn

Arnoldiana. Bright crimson-fruited Hawthorn of medium size. Zigzag branches with stout spines. Interesting upright shape. M
4 to 5 ft.\$5.00 | 5 to 6 ft.\$7.50
Phaenopyrum (Washington Thorn). Upright tree of medium size. Blooms are clustered white and fruit is brilliant red. Ideal hedge form or will make a fire specimen tree. M
4 to 5 ft.\$5.00 | 5 to 6 ft.\$7.50
Oxyacantha splendens (Paul's Scarlet Thorn). Double scarlet flowers. Late Spring bloomer. One of the finest. M
4 to 5 ft.\$6.00 | 6 to 7 ft.\$10.00
5 to 6 ft. 8.00 | 7 to 8 ft. 15.00

Use our Gift Certificate Plan—the easy way to present a friend with a Flowering Tree, a lasting gift of increasing value.

GORDONIA

Franklin Tree

Alatamaha. A small tree of extraordinary beauty in the Fall. Attaining 20 ft. in height, the graceful branches sweep the ground if allowed natural growth. If the lower branches are removed, the trunk appears smooth, silky and grey. The marble-like buds open about September 1 to large, creamy white flowers with deep orange-yellow centers. While still flowering, the shiny green leaves take on the brilliant crimson and scarlet Fall coloring, a strikingly beautiful sight. The Franklin Tree prefers full sun and a somewhat moist but well-drained acid soil near lake, pool or stream. M
3 to 4 ft.\$4.00, 3 for \$10.00
4 to 5 ft. specimens\$10.00

MAGNOLIA STELLATA

MAGNOLIA

Soulangeana (Saucer Magnolia). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M
2 to 3 ft.\$7.50 | 3 to 4 ft.\$10.00
6 to 7 ft.\$22.50
Soulangeana lennei. An outstanding variety with very handsome, big, leathery leaves. Late blooms of deep purple, white inside. M
2 to 2½ ft.\$8.00 | 3 to 4 ft.\$12.00
2½ to 3 ft. 9.00 | 4 to 5 ft. 15.00
Soulangeana nigra (Purple Magnolia). Similar to Lenei with huge, purple petals; heavy foliage of great beauty. M
4 to 5 ft.\$12.00 | 6 to 7 ft.\$20.00
5 to 6 ft. 15.00 | 6 to 8 ft. hvy. 25.00
Stellata (Star Magnolia). Small, broad, rounding habit, star-shaped flowers of pure dazzling white. Hardest and finest of all. S
18 to 24 in.\$7.50 | 3 to 4 ft.\$15.00
2 to 3 ft. 9.00 | 4 to 5 ft. 25.00

FLOWERING

MALUS Flowering Crab

It is difficult to adequately describe this most delightful group of Flowering Trees—such a wealth of color, fragrance and fruits do these afford. Also, no matter what habit of growth you might want—whether upright and regular; full, spreading and mounded; or interestingly irregular—there is a Flowering Crab to please you.

PARKMAN'S CRAB (*Malus parkmani*)

Atrosanguinea (*Carmine Crab*). Single crimson flowers in great profusion. Low-headed tree, spreading in habit, with slightly twisted branches. M
3 to 4 ft. very heavy.....\$6.00
4 to 5 ft. very heavy..... 9.00

Floribunda. A single, rose pink variety bearing an abundance of fruit even when young, which is very attractive to birds; vigorous grower. M
6 to 7 ft.\$15.00 | 7 to 8 ft.\$17.50
8 to 10 ft.\$25.00

Floribunda atropurpurea (*Purple-leaf Crab*). Brilliant foliage of rich reddish-purple. Single, deep red flowers and red fruit in clusters. M
5 to 6 ft.\$7.50 | 6 to 7 ft.\$9.00
7 to 8 ft.\$12.00

Hopa. Erect, symmetrical leaves tinged purple. Flowers large, red, single; dark red fruit. The fruit of this variety is good for jelly and is most decorative of all varieties. F
6 to 7 ft.\$9.00 | 8 to 10 ft.\$20.00
7 to 8 ft.\$15.00 | 10 to 12 ft. 25.00

Ioensis bechteli (*Bechtel's Crab*). A vigorous, shapely tree with double pink flowers exactly like miniature Roses and of delightful rose-like fragrance. A very fine variety. S
2 to 3 ft.\$1.75 | 4 to 5 ft.\$5.00
3 to 4 ft. 3.00 | 5 to 6 ft. 8.00

Ochermeria meyeri. This unusual weeping form is very handsome. Covered in Spring with red flowers of considerable size and in Fall, with large red fruit. M
5 to 6 ft.\$20.00 | 6 to 7 ft.\$25.00

Parkmani (*Parkman's Crab*). Slow growing tree with small, dark green leaves. Dark rose buds opening to semidouble pale pink blossoms. Dull red fruit. M
5 to 6 ft.\$9.00 | 6 to 7 ft.\$15.00
7 to 8 ft.\$17.50

Sargenti (*Sargent's Crab*). A dwarf, bushy hardy variety. Sparkling white flowers and an abundance of small red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S
4 to 5 ft.\$5.00 | 5 to 6 ft.\$7.50

Scheideckeri (*Scheidecker's Crab*). Very early, double bright pink blossoms. Bears waxy yellow fruit like Cherries. Distinctly upright and slender. M
5 to 6 ft.\$7.50 | 6 to 7 ft.\$10.00
8 to 10 ft. specimens.\$25.00

Sieboldi. Pinkish white flowers borne in great abundance. Particularly handsome in Fall, with brilliant scarlet fruit the size of sour Cherries. M
10 to 12 ft. heavy specimens.\$35.00

Spectabilis (*Chinese Crab*). A shapely tree with good shiny foliage and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M
6 to 7 ft.\$12.00 | 8 to 10 ft.\$25.00

Theifera (*Tea Crab*). Irregular, spreading top with zig-zag branches completely clothed with flowers. Buds red, opening to single pink flowers. Fruits dull red. Tree effect in bloom is Apple-like; in form, vase-shaped. F
7 to 8 ft.\$17.50 | 8 to 10 ft.\$25.00
10 to 12 ft.\$35.00

FRUIT OF MALUS SIEBOLDI

LABURNUM VOSSI

PURPLE-LEAF CRAB (*Malus floribunda atropurpurea*)

GORDONIA

TREES

LABURNUM

Vossi (*Golden Chain*). Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than *Laburnum vulgare*. M
5 to 6 ft. \$7.50

OXYDENDRUM

Arboreum (*Sorrel Tree*). A comparatively dwarf tree bearing an abundance of white flowers in Midsummer. The foliage turns several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M
4 to 5 ft. \$6.50 | 6 to 7 ft. \$10.00
5 to 6 ft. 7.50 | 7 to 8 ft. 12.50
8 to 10 ft., heavy. \$20.00

PRUNUS

Flowering Cherries

(*Serrulata Spectabilis Rosea*)

These are the Oriental Cherries which are so famous in Washington. They are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

Beni Higan. A small, upright tree with gay, bright pink, single blooms.
5 to 6 ft. \$9.00 | 6 to 7 ft. \$12.00

Cistena. Deep bronzy foliage and fine single pink flowers in Spring make this of special interest. Grows to 10 ft.
5 to 6 ft. \$7.50

Kwanzan. Large, double, deep pink flowers, almost red in bud. Well formed, vigorous grower which is very popular.
4 to 5 ft. \$6.00 | 5 to 6 ft. \$7.50
6 to 7 ft. \$12.00

Naden. A double deep pink variety of upright growth.
4 to 5 ft. \$6.00
5 to 6 ft. 7.50

Paul Wohlert. Fragrant, semi-double deep pink.
5 to 6 ft. \$7.50 | 7 to 8 ft. \$12.00

WEeping CHERRIES

Serrulata pendula (*Weeping Japanese Cherries*). A pendulous form of the well-known Flowering Cherries so admired at Washington, D. C. Double bright pink flowers in great profusion in early Spring. S
3 yr., 6 ft. stems. \$12.00

PRUNUS, PAUL WOHLERT

SORBUS (Mountainash)

FLOWERING PLUM

Pissardi (*Purple-leaved Plum*). A lovely, small flowering tree with purple foliage and the daintiest pink blossoms. A delightful addition to the landscape.
4 to 5 ft. \$3.5

SORBUS • Mountainash

Aucuparia (*European Mountainash*). Well-formed tree with small leaves and bearing large clusters of orange red berries. M

2½ to 3 in. cal. 17.50

CORNUS FLORIDA RUBRA

WISTERIA (Tree Form)

Sinensis, Tree Form.
The loveliest sight imaginable is a Tree Wisteria in May in full bloom. Racemes of purple-blue flowers so cover the pendulous branches as to transform the head of the tree into a cloud of delicate coloring. A charming addition to every garden but a necessity in the formal one. It grows in beauty as it ages. Wisterias prefer sunny locations and severe pruning enhances blooming. To assure your having blooms, we offer only grafted stock.
5 to 6 ft. \$12.00

Our Flowering Trees will be at the peak of bloom in May. Plan to visit the Nurseries.

MAGNOLIA SOULANGEANA

Would You Like to Have A Beautifully Landscaped Home?

Our trained personnel stand ready to help you.

Perhaps you have a general idea what you want but wish to clarify it—reduce it to particular plants of conforming character and growth habits to suit your tastes and purse.

Whether your grounds are large or small, you want an attractive setting for your home; you want pretty pictures all year round from your windows; and you want an outdoor living room for warm weather entertaining or relaxing.

Our Landscape Department can create for you this delightful "indoor-outdoor" design for living.

Furthermore, a Rosedale planting is a controlled planting—one that will not become a jungle in a few years—and as an added boon to you week-end gardeners, it is easy to care for.

Careful study of the location and appropriate selection of plant material are essential to skilled planning and successful results.

1—Before—A corner lot overgrown with weeds, brambles and brush.

2—After—The same lot cleared, graded, seeded and planted and revealing owner's house on the left.

3—Interesting planting of irregular wooded slopes about a relaxation area.

4—An interesting massed planting using larger material—and somewhat heavier in character—to blend with the large stone residence.

5—A perfect restful setting for outdoor entertaining on the larger grounds.

6—A thoroughly delightful and different treatment of sidewalk and driveway planting, rather than the usual hedge.

Consult Rosedale's Landscape Department

To obtain this service, telephone, write or call in person for an appointment with one of our representatives. We suggest making an appointment for sometime during the week as weekends are generally reserved for showing plant material here at the nursery. Also, more time can be allowed for consultation during the week.

We consult with you at your home, where we learn your likes and dislikes in plant materials and we measure your grounds so that the planting plan may be drawn to scale. We show the exact location of each plant to be installed as well as the good existing plants which are to remain.

The plan is developed at the drawing board, but frequently trips are made around the nursery to locate just the right plant or tree for a spot. This plan with an estimate of suggested plant material giving sizes and prices is submitted to you for approval. Consultation and plans are made without obligation on plantings involving \$100 or more of plant materials.

We suggest that you visit the nursery to see the trees and plants selected. If you approve, they are tagged at once in order to assure your receiving what you select.

Just one more thing—may we suggest that you give serious consideration to having an overall plan made in this way. You may do as little or as much as you choose at one time but the result will be a pleasing, integrated unit of comfortable living.

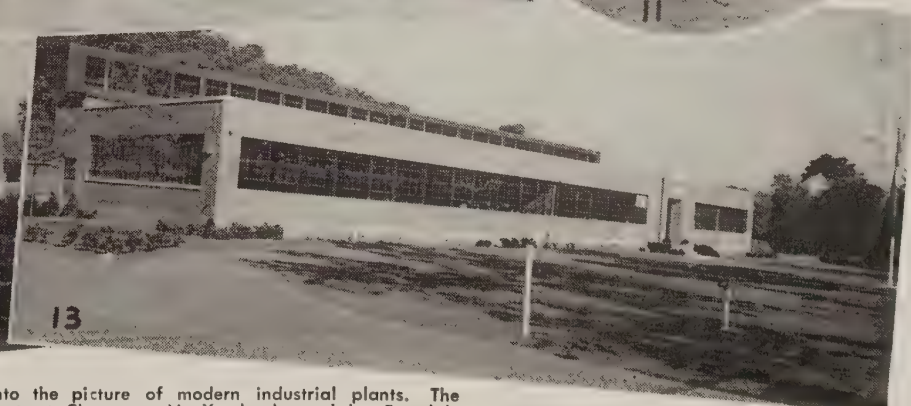

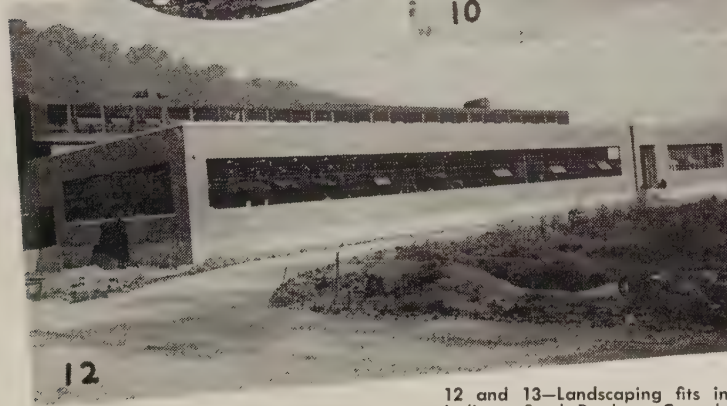

7—In November 1946, a handsome brick home was stifled by this dark jungle-like growth.

8—After careful planning and only 2 days spent in the actual clearing and replanting, Rosedale returned to the owner a home—fresh, inviting and landscaped in character with its setting.

9—An ideal planting of massed colorful flowering Evergreens. Ilex bullata greets you at the top of the steps; Mountain Laurel, Carolina Rhododendron and Azaleas cluster naturally about the foundation.

10—Dignified yet graceful entrance planting to Ferncliff Cemetery. A good example of our "controlled design"—this planting is five years old.

11—A Rosedale low-growing informal foundation planting, with flowering trees in scale, suited to the low porch and roof.

12 and 13—Landscaping fits into the picture of modern industrial plants. The Indiana Steel Products Co. plant at Chauncy, N. Y., landscaped by Rosedale Nurseries in the Fall of 1947.

ROSEDALE ROSES

Everybody likes Roses and everyone wants to grow them. Rosedale Roses are easy to grow and, because they are acclimated stock, take hold quickly in their new surroundings.

You can have a charming Rose garden in full bloom this year by planting Rosedale Roses this Spring.

All our Roses are sturdy, two-year-old, outdoor-grown stock.

We suggest April planting but you may order early and we will ship at the proper time. All Roses are sent post-paid by parcel post. Roses called for at the Nurseries are fresh dug to your order and may be planted the same day.

HARDY HYBRID TEA or EVERBLOOMING ROSES

Two years old—Field-grown—Low-budded on Multiflora stock—The Best for Outdoor Planting.

Excellent in beds, borders and for cutting.

Plant: Plant 18 inches apart. Prepare bed by spading and turning over soil. Dig hole large enough to admit roots spread out. Fill in with half the soil, tamping with feet. Water thoroughly. Add rest of soil, mixed with liberal quantity of Driconure, heaping soil in mound around plant to 6-inch height. Level this mound when growth starts.

\$1.00 each, 10 for \$9.50, except as noted

ROSE TREASURE COLLECTION

A collection of the newer outstanding varieties every garden should include. All superior patented Roses—including two award winners.

5 Roses for \$6.75 Postpaid

Charlotte Armstrong.....	Red
Countess Vandal.....	Pink
Eclipse.....	Yellow
Mirandy.....	Deep red
Peace.....	Yellow two-tone

Betty Uprichard. Carmine buds, salmon-orange inside; coppery carmine outside.

Caledonia. Large, white, very double, hardy and long-lasting. Slightly fragrant.

Charles K. Douglas. Lustrous scarlet crimson. Large, loose, slightly fragrant flowers. Bushy.

Christopher Stone. Velvety scarlet-crimson. Very fragrant. Stands hot weather.

Condesa de Sagato. Pink, two-tone. Coppery pink inside with golden tint outside. Raspberry fragrance.

Duquesa de Penaranda. Copper-apricot in Summer; cinnamon-peach in Fall. Long-stemmed.

Edith Nellie Perkins. Pink two-tone. Salmon-pink inside; rich copper tinged outside. Large, continuous bloomer; mildly fragrant.

Editor McFarland. Pink. Shades from deep apricot to coral pink as bud opens.

Etoile de Hollande. Bright red. Large, loose, semi-double flowers of great fragrance.

Frau Karl Druschki. Pointed carmine-pink buds opening to very large, double snow-white flowers—sometimes blush-pink at center. Vigorous profuse bloomer in May and June.

Golden Dawn. Sunflower-yellow turning to lemon. Well-formed, fragrant. Profuse, continuous.

K. A. Viktoria. White. Soft, pearly white with lemon-yellow center. Very fragrant.

McGredy's Yellow. Long pointed buds opening to buttercup yellow flowers. Lightly fragrant. Sturdy grower.

Mevrouw G. A. van Rossem. Very fragrant, large double, orange and apricot tones on golden background. Bronzy effect. Striking.

Mme. Joseph Perraud. Nasturtium-buff with luminous shell-pink petal edges. Long, slender buds. Fragrant.

One section of our scientifically controlled storage cellar showing some of our Roses. Rosedale's modern facilities for handling nursery stock assure you of the finest, healthiest plants.

Mme. Jules Bouche. White, blush pink in center. Fragrant and always in bloom.

Mrs. P. S. DuPont. Yellow. Deep golden, semi-double flower of medium size. Fragrant.

Pink Dawn. Deep rose opening to pink tinted with orange at base. Fragrant.

Poinsettia. The most brilliant of all red Roses. Vivid, velvety high-centered buds open to long-lasting perfectly formed flowers. Glossy green foliage. Vigorous and hardy. We thought so much of this Rose we gave this to our customers last year in honor of our 50th anniversary. \$1.25 each.

Radiance. Pink. Large flower of delicate cameo-pink. Blooms all season. Intensely fragrant.

Red Radiance. Red. Very large blooms of long-lasting quality and even color. Extremely fragrant. Tall-growing.

Soeur Therese. Daffodil yellow. Buds are silvery yellow; blooms have markings of mauve red. Fragrant.

The Doctor. Delicately colored pink. Enormous blooms. Sweet fragrance.

HYBRID TEA ROSES

PATENTED VARIETIES

Charlotte Armstrong (Plant Pat. No. 455). Blood-red opening to cerise. Beautifully shaped bud. Luxurious foliage. Moderate fragrance. \$1.50 each.

Countess Vandal (Plant Pat. No. 38). Bicolor. Coppery bronze and pink flooded with gold. Fine fragrance. \$1.50 each.

Crimson Glory (Plant Pat. No. 105). Oxblood red. Intense, deep vivid crimson. Wonderful fragrance. \$1.50 each.

Eclipse (Plant Pat. No. 172). Yellow. A rich, clear gold color. Produces abundantly. Continuous bloomer. \$1.50 each.

Forty-Niner (Plant Pat. No. 792). 1949 All-America Rose Winner. Probably the most brilliant of all bicolored Roses. The inside of the petals is a vivid red with the outside a chrome yellow. A beautiful, tall and vigorous growing plant. Long-budded, mildly fragrant. \$2.50 each.

Mirandy (Plant Pat. No. 632). Maroon red. Both buds and blooms of unusual brilliance. Extremely large, very double flowers of penetrating fragrance. \$1.50 each.

Nocturne (Plant Pat. No. 713). One of the finest reds—an All-America Award Winner for 1948. Longest, streamlined buds. Cardinal-red with crimson shadings. \$2.00 each.

Peace (Plant Pat. No. 591). Canary yellow to creamy ivory. Deep yellow buds with cerise-tipped edges swelling to creamy-white blooms with delicate pink tints. Unusually large, double and long-lasting. The 1946 All-America Award Winner. \$2.00 each.

Show Girl (Plant Pat. No. 646). Deep pink. Long, firm buds of rich coloring, on long stems making for excellent cutting. Delicate fragrance. A sturdy plant. \$1.50 each.

Tallyho (Plant Pat. Applied for). 1949 All-America Winner. A very unusual shade of pink with the outside of the petals almost a crimson. Beautiful buds on long-stems unfold slowly to full, many petaled blooms. Rich spicy fragrance. Easy to grow. \$2.50 each.

CLIMBING ROSE, Dr. J. H. Nicolas

RELIABLE CLIMBING ROSES

These excellent proven varieties are of vigorous, flowering stock and will be a constant source of satisfaction on walls, fences or trellises. They require little care.

Plant 4 feet apart.

All varieties, \$1.00 each, 10 for \$9.50, except as noted

Blaze (Plant Pat. No. 10). Scarlet. Vividly shaded, double flowers. An improved variety of Paul's Scarlet. Takes on everblooming characteristics as plant matures. \$1.50 each, \$15.00 per dozen.

Doublons. Very large, golden yellow, double flowers in clusters on strong stem. Fragrant, profuse intermittent bloom.

Dr. J. H. Nicolas. Cupped, rose-pink, very fragrant blooms in clusters. Very large flowers—almost 6 in. in diameter.

Flash. Velvety, deep scarlet-red with coppery yellow on outside. Slightly fragrant and double. Foliage leathery and bronzy.

King Midas (Plant Pat. No. 586). Deep yellow. Red-flushed buds opening to clear yellow. Longest blooming yellow climber. \$1.50 each.

New Dawn (Plant Pat. No. 1). Delicate pink. Blooms intermittently all Summer and Fall. One of the hardiest climbers. \$2.00 each.

Paul's Scarlet. Red. Intensely red flowers borne in loose clusters. Most popular red climber.

TRAILING GROUND COVER ROSES

Excelsa. Red. Clusters of intense crimson-maroon flowers. Excellent trailing type. Healthy foliage. 75c. each, \$7.50 per dozen.

Max Graf. Pink. Large single, shining pink flowers. Fine for banks and rocks. 75c. each, \$7.50 per dozen.

Wichuraiana. White. Clusters of starry white flowers. Glossy leaves. One of the best for bank covers. 75c. each, \$7.50 per dozen.

WICHURAIANA ROSES

FLORIBUNDA ROSES

Floribunda Roses are large-flowered, Polyantha-type Shrub Roses. They are very hardy and are truly everblooming, producing masses of blooms. Good for bedding and borders and the finest group of Roses for hedge purposes.

Plant 2 to 3 feet apart.

Betty Prior (Plant Pat. No. 340). Pink. Outside of petals dark carmine; inside, several shades lighter. Single flower borne in large clusters. Best for mass planting. Very fragrant. \$1.00 each, \$10.00 per dozen.

Donald Prior (Plant Pat. No. 377). Red. Bright scarlet tinted with crimson. Semi-double and very free flowering. Fragrant. Continuous bloomer. \$1.00 each, \$10.00 per dozen.

Cheer (Plant Pat. Applied for). Deep rose-pink—a cheery, warm flash of color. The oval orange-pink buds open to large, semi-double blooms in clusters. Upright and vigorous. \$1.25 each, \$12.50 per dozen.

Chatter (Plant Pat. No. 739). Double medium-sized blooms in immense clusters. Carmine. Bushy and compact grower. \$1.25 each, \$12.50 per dozen.

Floradora. Brilliant vermilion blooms. Prolific and continuous, June to Fall. \$1.00 each, \$10.00 per dozen.

Goldilocks (Plant Pat. No. 672). A rich, clear golden yellow showing up to excellent advantage against its dark green foliage. A neat grower of Sweetheart type and blooms freely. \$1.50 each, \$15.00 per dozen.

Pinkie. Large, double, slightly fragrant pink flowers. Dwarf, bushy grower. Blooms profusely. \$1.50 each, \$15.00 per dozen.

Pinocchio (Plant Pat. No. 484). Small, semi-double pink suffused with salmon blooms. Dwarf, bushy type. Very popular. \$1.25 each, \$12.50 per dozen.

Summer Snow (Plant Pat. No. 416). White. Beautiful large clusters; good for mass of color. \$1.00 each, \$10.00 per dozen.

World's Fair (Plant Pat. No. 362). Scarlet to maroon. Dark, velvety clusters of blooms virtually hide this bushy plant. Large, double flowers open to show a mass of golden stamens. \$1.25 each, \$12.50 per dozen.

MISCELLANEOUS ROSES

Skyrocket. Hardy, shrub-like in character. Bears deep pink blooms throughout the season. Often covered with blooms, buds, and seed pods at the same time. \$1.00 each.

Rosa Hugonis. Dainty, single yellow flowers on shrub-like plant. First to bloom in the early Spring. \$1.25 each.

FLORIBUNDA ROSES

TREE ROSES

Roses in Tree or Standard Form, with their crowns of glorious color add an unusual note of beauty and distinction to your garden. Budded on sturdy stock, they bloom abundantly from June through frost. We offer your favorite varieties in Tree Roses, too.

\$5.00 each, 6 for \$25.00

Charlotte Armstrong (Plant Pat. No. 455). Blood red to cerise.

Countess Vandal (Plant Pat. No. 38). Bronze pink tinged with gold.

Debonair. Large, double, golden yellow. Vigorous.

Eclipse (Plant Pat. No. 172). Golden yellow.

Forty-Niner (Plant Pat. No. 792). Flamboyant red and yellow bicolor.

Mirandy (Plant Pat. No. 632). Maroon-red.

Mrs. E. P. Thom. Rich yellow.

Nocturne (Plant Pat. No. 713). Red with crimson shadings.

Pinocchio (Plant Pat. 484). Pink suffused with salmon.

Show Girl (Plant No. 646). Deep pink.

Taffeta (Plant Pat. No. 716). Intriguing changeable tones of pink, salmon and yellow.

Tallyho (Plant Pat. Applied for). Unusual pink almost to crimson.

It's easy to grow really fine garden Roses with simple, quick care. For good results we recommend Du Pont Rose Dust as most satisfactory for home use. It is extremely easy to use—no mixing, no measuring required.

8-oz. Rose Dust Gun, ready to use.....64c.

1 lb. can Rose Dust, refill...\$1.00

Special: With every purchase of 10 Roses, we offer 1 lb. Du Pont Rose Dust and a 50-lb. bag of Driconure for \$3.00.

PEACE

PEACE

(Plant Pat. 591)

This exquisite, pink-flushed, creamy yellow Rose combines its fascinating color changes and its fine growing habits to make it a real asset to your Rose garden. **\$2.00 each**

MIRANDY

(Plant Pat. 632)

The 1945 All-America Rose Award Winner has very large, very double, deep maroon blooms of rich fragrance. Long, ovoid buds are especially fine for bouquets. **\$1.50 each**

TREE ROSE, SHOW GIRL

This tree form of the popular Hybrid Tea Rose is vigorous growing and has the same characteristic long-pointed, deep pink buds of delicate fragrance. Well-foliaged and full-headed. **\$5.00 each, 6 for \$25.00**

TREE ROSE, Show Girl

CHARLOTTE
ARMSTRONG

CHARLOTTE ARMSTRONG

(Plant Pat. 455)

This All-America Winner is without qualification the finest Hybrid Tea today. Hardy, strong and free-blooming, this brilliant red Rose, beautiful from bud to full bloom, has won almost every national award that any Rose can win. An all climate Rose. **\$1.50 each**

MIRANDY

COUNTESS VANDAL

(Plant Pat. 38)

Without doubt one of the loveliest and most popular Hybrid Teas because of its bronzy pink tones, its fragrance and its excellent growing qualities.

\$1.50 each

COUNTESS
VANDAL

BLAZE

BLAZE

(Plant Pat. 10)

One of the best scarlet climbers. Similar to Paul's Scarlet but upon maturing, this prolific blooms again in the Fall. Especially fine for fences and trellises where a vivid splash of color is desired.

\$1.50 each

GOLDILOCKS

(Plant Pat. 672)

A neat cheeriness is added to the landscape with the clear golden yellow blooms and dark green leaves of Goldilocks.

\$1.50 each

GOLDILOCKS

DR. J. H. NICOLAS

(Plant Pat. 457)

An everblooming climber with deep rose-pink flowers of tremendous size. This extremely hardy Rose with its enduring fragrance and sensational blooming performance is the joy of Rose fanciers

\$1.00 each

PINKIE

(Plant Pat. 712)

A delightful little pink Rose bush of Floribunda type but attaining only 18 to 24 inches. Its dainty perfectly formed buds completely cover the mounded, compact bush and will outbloom any other Floribunda. Excellent for low borders.

\$1.50 each

PINKIE

DR. J. H. NICOLAS

WORLD'S FAIR

(Plant Pat. 362)

This Floribunda Rose gives a continuous show of velvety scarlet-to-maroon color from ear'y Summer to frost.

\$1.25 each

WORLD'S FAIR

EVERGREENS

Conifers

Evergreens present you with a most adaptable group of plants, suitable for a variety of uses, and we mention a few of these uses below to help you plan your planting.

We take particular pride in the quality of our Evergreens—in their vigor, shape and expert balling and burlap-ping (B&B). These factors make for safe, easy transplanting and quicker re-establishment in a new location. Frequent transplanting here in the nursery develops strong root systems and is one of the behind-the-scenes operations that makes our evergreens superior.

Always remember that careful and wise pruning will keep your plants and trees pretty much as you want them. An excellent example is the Hemlocks—one of the most popular of all trees for Evergreen hedges for maintaining fullness and controlled height—yet if allowed to grow unpruned, it will in time, reach a height of 70 to 100 feet.

PLANTING: As a general guide to planting B&B plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

To aid you in selecting material most suitable to your needs, we make the following list of suggestions—although some of our plant materials are omitted from the classifications for the sake of brevity.

UPRIGHT:

Conical in Shape:

Hemlock.....*Tsuga canadensis*
Norway Spruce.....*Picea excelsa*

ABIES • Fir

Homolepis (Nikko Fir). Hardy, beautiful Fir from the Orient; dark green needles silvery on underside. M

A limited number of specimens available from 7 to 16 feet, priced on selection

CHAMAECYPARIS

Retinospora

These thrive best in moist soils and situations not too much exposed to wintery gales. They are generally rapid growing types and should receive frequent shearing to keep them thick and attractive.

Obtusa nana compacta (Dwarf Hinoki Cypress). Very dwarf, dark green, irregular foliage. Extremely interesting plant for rock-work. S

15 to 18 in...\$6.00 | 18 to 24 in...\$7.50

Pisifera. Quick-growing, feathery evergreen. Attains large size and grows bushy and thick. Useful for screen. F

4½ to 5 ft...\$7.50 | 5 to 5½ ft...\$9.00

Pisifera aurea. A beautiful golden form with same delicate foliage as Pisifera. F

4 to 4½ ft...\$7.50 | 4½ to 5 ft...\$9.00

Plumosa (Plume Cypress). Light green, soft, feathery, plume-like foliage. Graceful habit. F

18 to 24 in...\$2.75 | 3 to 4 ft...\$7.50

2 to 3 ft...3.50 | 4 to 5 ft...9.00

Plumosa aurea (Golden Plume Cypress). Similar to Plumosa listed above except that the tips of growth are a golden color, giving the entire plant an aureate cast. F

18 to 24 in...\$2.75 | 3½ to 4 ft...\$7.50

2 to 3 ft...3.50 | 4 to 4½ ft...9.00

Squarrosa (Moss Cypress). A handsome, glaucous tree of striking appearance and color. Our strain is especially bright in color. An unusual gray-blue. M

2 to 3 ft...\$5.00 | 3 to 4 ft...\$7.50

JUNIPERUS • Juniper

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rocky, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

Chinensis columnaris. Fast growing, slender tapering spire. Best substitute for our native Cedar. Hardy, light green, effective Evergreen. F

4 to 4½ ft...\$6.00 | 4½ to 5 ft...\$7.50

5 to 6 ft...\$9.00

Chinensis pfitzeriana (Pfitzer's Spreading Juniper). A handsome spreading form, slightly larger than most other spreading types. It has gray-green, plume-like foliage and is extremely useful as a filler in foundation or border planting. Hardy and indifferent to drought. M

18 to 24 in...\$4.50 | 3 to 3½ ft...\$10.00

2 to 2½ ft...6.00 | 3½ to 4 ft...12.00

2½ to 3 ft...7.50 | 4 to 5 ft...15.00

Chinensis sargentii. A low, trailing form with deep green foliage. Best Juniper for rock gardens. S

12 to 15 in...\$4.00 | 15 to 18 in...\$5.00

Communis depressa plumosa. A dwarf, low-spreading form with plummy foliage fanning out from the center. This Juniper offers the most interesting color changes of all the Junipers—green in the Spring; gray-green in the Summer changing to myriads of heather tones in the Winter. S

15 to 18 in...\$3.50 | 18 to 24 in...\$4.50

2 to 2½ ft...\$6.00

Excelsa stricta (Greek Juniper). Slow-growing and of upright, columnar habit. The restful gray-green foliage makes it additionally useful as a color accent. S

15 to 18 in...\$2.75 | 2 to 2½ ft...\$5.00

18 to 24 in...3.50 | 2½ to 3 ft...7.50

3 to 4 ft...\$9.00

Glauca hetzi (Silver Pfitzer Juniper). A spreading type, decidedly blue, rapid in growth but stands shearing well. May be considered for both formal and informal plantings. F

3 to 3½ ft...\$9.00

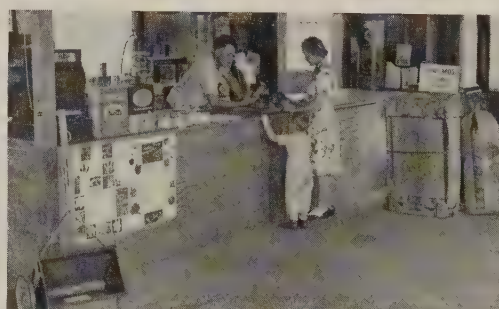

Hibernica (Irish Juniper). A narrow, columnar, blue green type. Attains about 7 to 8 ft. in height and is a great favorite for accent points in the garden. S

2½ to 3 ft...\$5.00 | 3 to 3½ ft...\$6.00

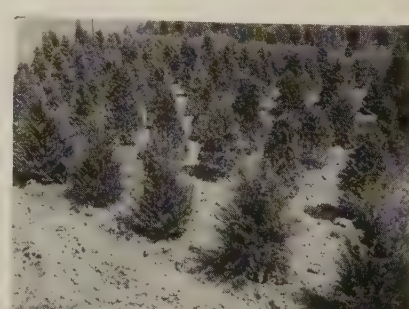

3½ to 4 ft...\$7.50

Sales Shed and Lath House where customers and sales personnel meet before going into the fields to see material desired.

Customer and Salesman return to Shed to write order and select proper fertilizer.

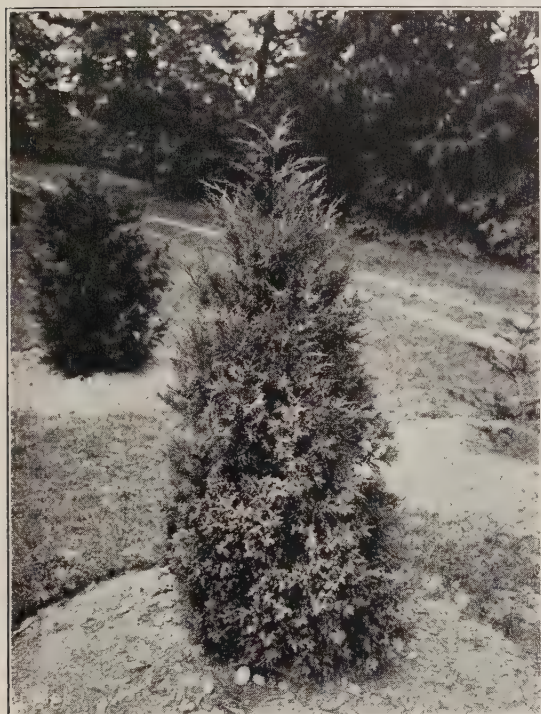

A block of *Taxus capitata* showing the well-spaced transplanted stock.

JUNIPERUS—Continued

Virginiana burki. A distinct, silver Cedar worthy of more attention. Uniform, upright growth of soft foliage. M
4 to 5 ft.\$9.00 | 5 to 6 ft.\$12.00

Virginiana cannarti. An aristocrat of Cedars. Upright, blackest green tree, bearing quantities of the most ornamental blue berries. M
4 to 5 ft.\$9.00 | 5 to 6 ft.\$12.00

Virginiana keteleeri (Keteleer Juniper). Named for a landscape architect in Paris. This comparatively new variety is never attacked by aphid or blight. It grows in pyramidal form and is of very pleasing, light green color which it maintains during Winter. M
3 to 3½ ft.\$6.00 | 4 to 5 ft.\$10.00
3½ to 4 ft. 7.50 | 5 to 6 ft. 15.00

KETELEER'S JUNIPER (*Juniperus virginiana keteleeri*)

PICEA • Spruce

No group of Evergreens is more widely used in landscape work than the Spruces and many of them are among the most showy and rapid growing of their class. Spruces will grow in almost any kind of moderately moist soil and are easily transplanted.

Recommended for lawn specimens, screen, or border.

Canadensis (White Spruce). A tall, compact tree of rapid growth with blue-green foliage. Very hardy. Fine for screens, windbreaks or as a specimen. F
5 to 6 ft.\$12.00 | 6 to 7 ft.\$16.00

Excelsa (Norway Spruce). Rapid growing Christmas tree type attaining great size. Useful for windbreak or individual specimen. F
3 to 4 ft.\$5.50 | 4 to 5 ft.\$8.00
5 to 6 ft.\$12.00

Kosteriana (Koster Blue Spruce). This is the bluest of all—regular and symmetrical in growth with somewhat pendulous branches. For best effect this should be used as a specimen planting or as an accent. M
2 to 2½ ft.\$10.00

Omorika (Serbian Spruce). Dense pyramid, attaining great size slowly. Needles are dark green above and silvery underneath and branches sweep out in arcs. Hardy and reliable. M
3 to 4 ft.\$12.00 | 4 to 5 ft.\$15.00
5 to 6 ft.\$17.50

PINUS • Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

Cembra (Swiss Stone Pine). Hardy dark green foliage. Tree symmetrical, slow growing and compact. A very handsome lawn specimen narrowly pyramidal. S
3 to 4 ft.\$10.00 | 4 to 5 ft.\$15.00

Montana mugho (Dwarf Mugho Pine). Low mounded Pine with short, stubby needles. Slow in growth, attaining greater spread than height. S
15 to 18 in.\$4.50 | 18 to 24 in.\$6.00
2 to 2½ ft.\$8.00

Nigra austriaca (Austrian or Black Pine). This flourishes near the seacoast and on high, bleak hills or in cities where smoke and dust would prohibit the use of many other Evergreens. F
2 to 3 ft.\$6.50 | 3 to 4 ft.\$8.00

Parviflora glauca (Oriental White Pine). A hardy tree of irregular growth with bluish green needles in tufts at the ends of branches. Very picturesque. M
4 to 5 ft.\$7.50 | 5 to 6 ft.\$9.00
6 to 7 ft.\$12.00

Peuce (Macedonian Pine). A very ornamental hardy Pine of regular, dense habit and slow growth. Needles rich silvery green about 3 in. long. Resembles Swiss Stone Pine. M
4 to 5 ft.\$9.00 | 5 to 6 ft.\$12.00
6 to 7 ft.\$16.00

Sylvestris (Scotch Pine). A Pine of picturesque, windswept beauty and dense, blue-green foliage. Thrives in windy, dry locations. F
5 to 6 ft.\$12.00 | 6 to 7 ft.\$15.00
7 to 8 ft.\$18.00

Strobus (White or Weymouth Pine). This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. F
2 to 3 ft.\$3.75 | 6 to 7 ft.\$15.00
3 to 4 ft. 5.00 | 7 to 8 ft. 18.00
4 to 5 ft. 8.50 | 8 to 9 ft. 22.50
5 to 6 ft. 12.00 | 9 to 10 ft. 30.00
10 to 12 ft.\$40.00

MUGHO PINE (*Pinus montana mugho*)

PSEUDOTSUGA

Douglasi (Douglas Fir). This handsome tree has gray-green foliage, is very hardy and extremely ornamental at all stages of growth. Its hardiness and beauty would be difficult to overrate. Thrives in Canada and will endure both drought and cold. Some specimens are rich deep green, others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and believe we have superior stock to offer. F
3 to 4 ft.\$7.50 | 5 to 6 ft.\$12.00
4 to 5 ft. 9.00 | 6 to 7 ft. 18.00

PSEUDOTSUGA DOUGLASI (Douglas Fir)

THUJA • Arborvitae

Ornamental evergreen trees of narrow pyramidal habit. They are favorites for formal gardens because of their regular, symmetrical habit. Adapted for hedges and windbreaks. Thrive best in a moist, loamy soil.

Occidentalis (American Arborvitae). Beautiful native tree, commonly known as White Cedar. Especially useful for hedges and screens. M
4 to 5 ft.\$6.50 | 6 to 7 ft.\$12.00
5 to 6 ft. 9.00 | 7 to 8 ft. 16.00

Occidentalis plicata (Giant Arborvitae). Although of narrow, pyramidal form, this tree attains tremendous height. The effect of glossy, bright green leaves against the cinnamon-red bark is of interesting beauty which becomes accentuated with age. M
4 to 5 ft.\$7.50

Occidentalis pyramidalis (Pyramidal Arborvitae). The deep green color and upright pyramidal form of this species renders it conspicuous in contrast with other evergreens. It is very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge. M
3 ft.\$3.75 | 5 to 6 ft.\$9.00
4 to 5 ft. 6.00 | 6 to 7 ft. 12.00
7 to 8 ft.\$14.00

Occidentalis nigra (Dark American Arborvitae). An upright variety maintains a dark, rich green. M
2 to 3 ft.\$3.75 | 4 to 5 ft.\$6.50
3 to 4 ft. 4.50 | 5 to 6 ft. 9.00
6 to 7 ft.\$12.00

Rosenthalii (Rosenthal Arborvitae). A rugged, columnar tree of slower growing habit than other Arborvitaes. Very hardy with especially fine foliage during the Winter. M
4 to 5 ft.\$10.00 | 5 to 6 ft.\$12.00

Occidentalis spiralis. Compact tree with upright branches and short, close set branchlets clothed with beautiful, dark foliage. M
3 to 4 ft.\$6.00 | 4 to 5 ft.\$7.50

Occidentalis wareana (Ware or Siberian Arborvitae). A sturdy variety of broad, pyramidal form upon maturity. Gray-green foliage. Dense, rugged grower of slow habit. M
3 to 4 ft.\$7.50 | 4 to 5 ft.\$9.00

Occidentalis boothii (Booth Globe Arborvitae). Dense, globe-shaped variety which maintains its shape without shearing; foliage is a pleasing seagreen in Summer; in Winter, bronze; perfectly hardy; grows about 3 ft. high. S
15 to 18 in.\$2.50 | 18 to 24 in.\$3.50
2 to 2½ ft.\$5.00

EVERGREENS

THUJA—Continued

Orientalis elegantissima (*Biota*). Slender, columnar form with bright, golden-tipped foliage in the Spring, green-gold in Summer. A strong accent during Winter, with dark golden bronze coloring. Hardest of Chinese Arborvitae. M
4 to 5 ft.\$7.50

Orientalis nana (*Golden Biota*). A neat, compact, dwarf plant of round, or egg shape with yellow to bronze foliage. Always retains its neat, compact form without training. S
12 to 15 in.\$2.75 | 15 to 18 in.\$3.50
18 to 24 in.\$5.00

TSUGA • Hemlock

Hemlocks can be used in many different ways; as lawn specimens they attain great size and beauty; by shearing they may be used in foundation planting and kept from overgrowing for years and years; for border or screen they form a most naturalistic background. Hemlocks thrive in shade or full sun and are practically immune to insects and disease.

Canadensis (*Canadian Hemlock*). A handsome, ornamental tree growing 70–100 ft. high; dark green foliage; hardy as far north as Canada. F
10 to 15 in. \$1.50 each, \$14.00 per 10, \$125.00 per 100
15 to 18 in.\$2.25 each, \$20.00 per 10
18 to 24 in.3.50 each, 30.00 per 10
2 to 3 ft. \$5.00 | 5 to 6 ft. \$15.00 | 8 to 9 ft. \$35.00
3 to 4 ft. 7.50 | 6 to 7 ft. 18.00 | 9 to 10 ft. 50.00
4 to 5 ft. 10.00 | 7 to 8 ft. 25.00 | 10 to 12 ft. 75.00
Larger specimens priced upon selection

Canadensis sargentii (*Sargent's Weeping Hemlock*). Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent. S
18 to 24 in.\$7.50 | 3 to 3½ ft.\$20.00
2 to 2½ ft.10.00 | 3½ to 4 ft.25.00
2½ to 3 ft.15.00 | 4 to 4½ ft.35.00

Caroliniana (*Southern Hemlock*). Native of the mountains of the Southern States and perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock. M
2 to 3 ft.\$6.00
4 to 5 ft.12.00
5 to 6 ft.17.50

Diversifolia (*Japanese Hemlock*). Very dwarf, with crisp, dense foliage on reddish branches. Slowest growing of all our Hemlocks and will thrive in sun or partial shade. S
2 to 2½ ft.\$7.50 | 3 to 3½ ft.\$12.00
2½ to 3 ft.9.00 | 3½ to 4 ft.15.00

McLayi. A unique, dwarf Hemlock of unusual form. Entirely hardy and suitable for foundation planting because of slow growth and picturesque shape. S
4 to 5 ft.\$15.00 | 5 to 6 ft.\$20.00

PYRAMIDAL ARBORVITAE
(*Thuja pyramidalis*)

SILVER CEDAR
(*Juniperus burki*)

TAXUS • Yew

ARISTOCRAT OF EVERGREENS —

MOST DESIRABLE OF ALL

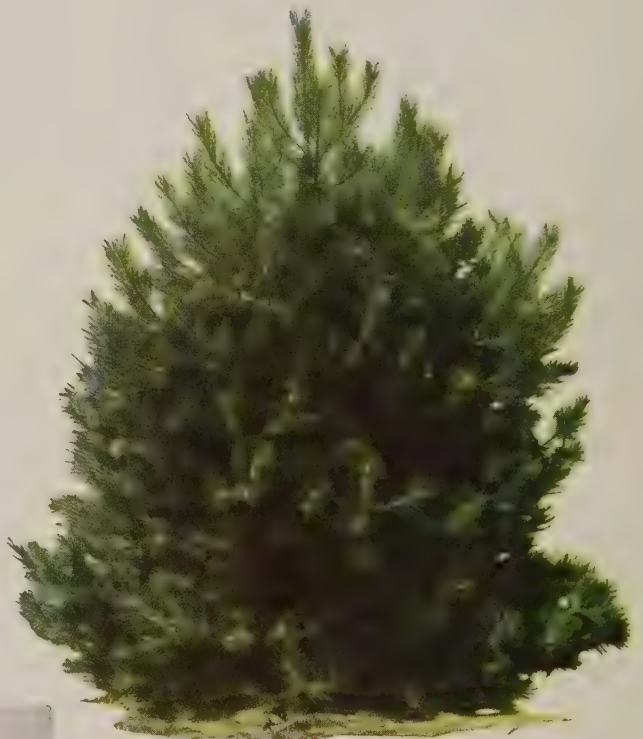

The rich, dark green color, hardiness, freedom from ills and slow, rugged development make these the most popular of all the needled Evergreens. They thrive best in a moderately sandy loam but will endure adverse soil conditions and shade.

The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping, to mention just a few—make Yews suitable for almost any landscape requirements. Among other uses they make the finest of all hedges. Yews stand heavy pruning well.

Our selection of Yews is very extensive, of finest quality. We offer these at new low prices.

Baccata repandens (*Spreading English Yew*). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. M

12 to 15 in. \$3.75 | 15 to 18 in. \$4.25 | 18 to 24 in. \$5.50
2 to 2½ ft.\$7.50 | 2½ to 3 ft.\$9.00

AUSTRIAN PINE (*Pinus nigra*)

GREEK JUNIPER
(*Juniperus excelsa stricta*)

PFIZER'S JUNIPER (*Juniperus pfizeriana*)

Columnaris. A narrow, pyramidal form requiring a minimum of shearing. Dark green and very luxuriant. Fine for accent. M

2½ to 3 ft.\$9.00 | 3½ to 4 ft.\$18.00
3 to 3½ ft.15.00 | 4 to 4½ ft.22.50

Cuspidata (*Spreading Japanese Yew*). Dense spreading habit. Deep green foliage. Especially useful near the house. Very hardy. M

15 to 18 in.\$3.95 | 3 to 3½ ft.\$15.00
18 to 24 in.6.50 | 3½ to 4 ft.18.00
2 to 2½ ft.9.00 | 4 to 4½ ft.22.50
2½ to 3 ft.12.00 | 4½ to 5 ft.30.00
5 to 5½ ft.\$35.00

Taxus Hatfield Spreader and **Taxus densiformis** are developments of *Cuspidata* and similar in shape. Same prices apply to these varieties. Come in and see them. M

TAXUS—Continued

Cuspidata brevifolia (*Dwarf Japanese Yew*). Dwarf, compact, very hardy; low spreading form. S

12 to 15 in.....\$3.75	2 to 2½ ft.....\$12.00	3½ to 4 ft.....\$40.00
15 to 18 in..... 5.00	2½ to 3 ft..... 20.00	4 to 4½ ft..... 50.00
18 to 24 in..... 7.50	3 to 3½ ft..... 30.00	4½ to 5 ft..... 75.00

A few larger sizes priced on selection

Cuspidata capitata (*Upright Japanese Yew*). Upright tree form of Cuspidata, very desirable for foundation planting. Best of evergreen hedges. M

15 to 18 in.....\$4.75	3½ to 4 ft.....\$18.00
18 to 24 in..... 6.00	4 to 4½ ft..... 22.50
2 to 2½ ft..... 7.50	4½ to 5 ft..... 27.50
2½ to 3 ft..... 9.00	5 to 5½ ft..... 35.00
3 to 3½ ft..... 15.00	5½ to 6 ft..... 45.00

A few large specimens priced on selection

Hatfieldi (*Hatfield Upright Yew*). Finest upright Yew. Holds its form almost without trimming. M

15 to 18 in.....\$4.50	2 to 2½ ft.....\$7.50
18 to 24 in..... 5.50	2½ to 3 ft..... 10.00
3 to 3½ ft.....\$15.00	

Hicksi (*Hicks Yew*). Interesting form of this most useful family. Exceptionally dark green needles. Grows in an upright, columnar shape. Bears red berries profusely. M

2 to 2½ ft.....\$7.50	3½ to 4 ft.....\$15.00
2½ to 3 ft..... 10.00	4 to 4½ ft..... 17.50

5 to 5½ ft.....\$25.00	

HICK'S YEW (*Taxus hicksi*)

UPRIGHT JAPANESE YEW (*Taxus cuspidata capitata*)

SPREADING JAPANESE YEW (*Taxus cuspidata*)

Our sales grounds are constantly filled with a wide selection of Yew varieties which may be taken with you without delay

Intermedia. Semi-dwarf variety. Much superior to Cuspidata for foundation planting. Dense and compact. S

18 to 24 in.....\$7.00	2 to 2½ ft.....\$9.00
2½ to 3 ft.....\$12.00	

Media browni. This rounded, full-centered type of compact Yew is our very best type for hedges where medium height and considerable fullness is desired. Our stock this year is especially fine and we offer this as our best buy in Taxus. M

15 to 18 in.....\$4.75
18 to 24 in..... 5.50
2 to 2½ ft..... 7.50
2½ to 3 ft..... 10.00
3 to 3½ ft..... 15.00

Moon's Columnaris (*Moon's Columnar Yew*). A generally upright variety usually having a spread—very nearly equal to height. Its foliage is heavy and of deepest dark green. Hardy and slow in growth. Highly recommended. S

2 to 2½ ft.....\$10.00
2½ to 3 ft..... 15.00

Vermeulen. A dense-growing, upright, mounded type of Yew. Slightly irregular in character it makes an interesting addition to the landscape planting, and its extremely slow growth makes it more valuable than Boxwood in this climate for entrance planting. S

2 to 2½ ft.....\$10.00
2½ to 3 ft..... 15.00
3 to 3½ ft..... 17.50

CANADIAN HEMLOCK (*Tsuga canadensis*)

BROWN'S YEW (*Taxus browni*)

GLADIOLUS

There is nothing in the garden to equal the stalwart beauty of these colorful flower spikes. We offer extra fine varieties in an increased range of colors. Our bulbs are thrip-free and besides the regular large size bulbs we have the JUMBO—extra large—bulbs. These will produce a galaxy of color in your garden this July if planted this Spring.

PLANTING

Plant in full sun 3 to 6 inches deep, depending upon the size of bulb and texture of soil. Rich, well-drained loam with applications of fertilizer will encourage a more showy display of blooms.

Bulbs should be dug in the late Fall after a killing frost—first cutting off the tops close to the ground. Dry and shake off soil. Keep in a dry place until replanting the next Spring.

While we offer many other varieties than those listed in the collections, space does not permit our listing them all here.

100 No. 1 Blooming Size Bulbs, Labeled—
not less than 10 of a kind—\$6.00

100 No. 1 Blooming Size Bulbs, Unlabeled,
Mixed—50 for \$2.50, 100 for \$4.75

100 Jumbo Giant Sized Bulbs, Labeled—
not less than 10 of a kind—\$7.95

100 Jumbo Giant Sized Bulbs, Unlabeled,
Mixed—50 for \$3.75, 100 for \$7.50

RAINBOW COLLECTION

A color spectacle for your garden or for cutting. These gaily-hued, heavily flowered varieties will be a constant source of joy. Labeled.

25 for \$2.00..... (5 each)

50 for \$3.75..... (10 each)

Rocket. Brilliant scarlet-red.

Maid of Orleans. Creamy-white; very showy.

Margaret Fulton. Rich clear salmon-pink; one of the best of the older varieties.

Irak. Silvery lavender-gray; charming.

Gold Dust. Deep golden yellow; very early.

SILENTIUM

GARDENER'S CHOICE COLLECTION

Wonderful assortment of colors and varieties for the garden and for cutting. Large, full blooms on tall, straight stems. Labeled.

25 bulbs for \$2.00 (5 each)

50 bulbs for \$3.75 (10 each)

King William. Soft salmon with creamy throat. Strong grower.

Gardenia. Creamy white; tall straight stem.

Silentium. White with carmine markings; wonderful spikes for cutting.

Rocket. Brilliant scarlet-red.

Minuet. Clear, light lavender.

JUMBO GLADIOLUS COLLECTION

All giant-sized bulbs in healthy, sturdy stock to produce colorful, heavy-flowered spikes this year.

25 bulbs for \$2.75 (5 each) or 50 bulbs for \$5.00 (10 each). Labeled

Snow Princess. Tall, snowy white.

Picardy. Giant spikes, shrimp-pink. A long-time favorite.

Pink Radiance. Luminous light pink. Multi-flowered.

Mother Kadel. Magnificent yellow. Blue ribbon winner.

Minuet. Clear, light lavender.

Our Guarantee:

We guarantee all nursery stock to be in first-class condition when delivered to the customer. Please advise us promptly of any damage or loss in handling.

We guarantee our nursery stock to be true to name and use every care to properly label as sold. Should any prove untrue we agree to replace or refund purchase price.

Provided account is paid in accordance with agreed upon terms and plants have received reasonable care, we will replace at one-half price of the plants, any woody plants furnished which if planted in the Spring fail to survive through the Summer, or if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above plus the cost of planting.

The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times. We reserve the right where necessary to change prices without notice and to charge for specimen plants according to their individual value.

FREE Delivery Area

(Applies to Retail Orders Only)

NORTH

The following points in Putnam County:
Lake Mahopac—except some Mahopac R. F. D. points

Continental Village	Mahopac Falls
Oregon	Carmel
Oscawanna	Tilly Foster
Crofts Corners	Brewster
Adams Corners	Peach Lake

EAST

The following points in	Connecticut:
Ridgefield	Westport
Branchville	Norwalk
Georgetown	Darien
Weston	Noroton
Wilton	Stamford
New Canaan	Greenwich

SOUTH

Riverdale (Fieldston) Bronx
Spuyten Duyvil

WEST

To Hudson River (East side of River only)

However, as an added service, we extend our deliveries beyond the local free delivery zone.

The charge for a delivery by our express truck—a $\frac{3}{4}$ -ton pick-up truck—is \$10.00 for a distance up to 30 miles beyond the free delivery area.

For a large platform truck of $1\frac{1}{2}$ - to 3-tons—the charge is \$25.00 for a delivery up to 30 miles outside the free delivery area.

Opinions and recommendations are based on growing habits observed in our nurseries. Appropriate allowances must be made for variations in climate, temperature, exposure and elevation even within Westchester County.

Although authorities differ, we have tried, in an effort to aid you in your selection, to give the consensus of opinion in coding our plant material as to speed of growth:

S—Slow growing F—Fast growing
M—Moderate growing

FRUIT TREES

APPLES

One of the most satisfactory of all lawn trees is a well-proportioned Apple tree, attractive at all times and really gorgeous when in full bloom. It follows with a generous crop of one of the finest of all fruits.

BEARING AGE APPLE TREES

Again this year we are able to offer a small quantity of landscape-size Apples. These trees are 2 inches or over in caliper, 7 years old, and have been rigidly pruned and cared for and are ready to bear.

May be delivered locally with ball of earth.

Personal selection at the nurseries only

Planting Bare Root Material:

1. Plant at once digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water *thoroughly* twice a week.

Two-Year Old Apple Trees

The best size to plant for a good sized orchard but will take 4 years or more to bear. This stock is propagated from bearing orchards of superior strains. Plant 30 feet apart.

Selected No. 1 Grade, 11/16 inch caliper, 5 to 7 feet, each \$1.75, 3 for \$5.00

In order to assist you in planning we state after each Apple whether it is self-fruitful, meaning it does not need cross pollination with another tree in order to bear fruit or, it does need a cross pollinator and which ones we recommend.

Baldwin. Well-known red. Winter Apple. Keeps well, fine flavor, juicy, crisp. Excellent for cooking and eating. Self-fruitful.

Cortland. An improved McIntosh type. Winter Apple with McIntosh flavor and quality but with tendency to cling to tree more than McIntosh. All-purpose Apple. Slightly self-fruitful. Cross pollinators: McIntosh, Red Delicious.

Delicious, Red. Large, dark red. Winter Apple. Crisp, fine flavor. Good for cooking and eating. Cross pollinators: Cortland, McIntosh.

Delicious, Yellow. Golden yellow. Winter Apple. Firm, juicy. Good for cooking and eating. Self-fruitful.

Gravenstein, Red. Crisp, tart-flavored, solid dark red Autumn Apple. Popular for eating and cooking. Self-fruitful.

McIntosh Red. Leading commercial variety for New York State. Attractive, red Winter Apple of white, tender, juicy flesh, fine eating and cooking. Bears fairly young. Cross pollinators: Cortland, Red Delicious.

Northern Spy. Large, bright red Winter Apple of unsurpassed flavor. Bears well but matures slowly. Keeps very well. Excellent for cooking and eating. Cross pollinators: Macoun.

Red Astrachan. Crimson. Summer Apple. An old favorite for cooking and eating. Cross pollinators: McIntosh, Red Delicious.

Red Spy. Bright red. Winter Apple. A more recent development of the Northern Spy, good for cooking and eating. Cross pollinator: Macoun.

R. I. Greening. Large, yellow-green Autumn Apple unexcelled for cooking. Bears well, keeps well. Self-fruitful.

Yellow Transparent. Pale yellow. Summer Apple. Cooking. Cross pollinators: McIntosh, Red Delicious.

CHERRIES

1-year old trees, 11/16 inch caliper, 4 to 6 feet Top Grade, \$2.50 each, 3 for \$7.00

Plant any two Cherries for cross pollination.

Plant Sour Cherries 15 to 20 feet apart.

Plant Sweet Cherries 25 to 30 feet apart.

Black Tartarian. The favorite large, black sweet Cherry. Juicy and very rich. Early ripening—about late June.

Governor Wood. Large, light yellow and red sweet Cherry. Excellent for home use. Very productive. June.

Montmorency. The best sour Cherry. Productive, hardy and of excellent flavor. Ripens early, about July.

Schmidt's Bigarreau. Very large, purplish-red sweet Cherry of splendid flavor. Early—about July.

Windsor. Delicious, large, firm purple—almost black Cherry. Very vigorous growing and productive. Hardest Sweet Cherry. Excellent for July eating and canning.

CRABAPPLE

Selected, No. 1 Grade, 11/16 inch caliper, 5 to 7 feet—\$1.75 each, 3 for \$5.00

These varieties are self-fruitful. Plant 15 to 20 feet apart.

Dolgo. Handsome Red Crabapple in early September. Hardy, productive, juicy. Superb for ruby-red jelly, pickling, and exceptionally good for cider.

Hyslop. Brilliantly colored purplish-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo.

PEACHES

Selected 1-year Budded Trees, 11/16 inch caliper, 3 to 5 feet—\$1.25 each, 3 for \$3.00

The varieties listed are self-fruitful. Plant 15 to 20 feet apart.

Belle of Georgia. Well-known white freestone Peach ripening late August. A rich creamy Peach with red blush.

Crawford. Large, yellow freestone Peach. One of the best of the late varieties, ripening about early September.

Elberta. Most popular and best known yellow Peach. Handles well, of good flavor, juicy and freestone. Ripens early September.

Golden Jubilee. Extremely popular, hardy new Peach. Large, golden-yellow, red-blushed fruit. Freestone. Best early yellow Peach, ripening about mid-August.

Hale-Haven. Beautifully colored yellow Freestone. Very hardy and vigorous. Ripens about ten days ahead of Elberta.

Red Haven. Excellent flavor of the South Haven and Hale-Haven but ripens much earlier—in mid-August. Earliest yellow Freestone. Yields well and is hardy.

Valent. A juicy, yellow Freestone of good quality, similar to Elberta. Yellow with red blush. Early September.

APRICOT

Moorpark. Large, round fruit. Orange with red cheek. Rich flavored, juicy flesh. Self-fruitful. Plant 15 to 20 ft. apart.
2 yr., 11/16 in. caliper.....\$2.00

QUINCE

No. 1 Grade:

Orange. An excellent large round golden yellow fruit. Fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 ft. apart. 1 yr., ½ inch caliper, \$2.00.

PLUMS

Selected First-Class Trees, 2 years old, 11/16 inch caliper, \$2.25 each, 3 for \$6.00

Abundance. Large fruit, amber turning to red. Very tender, sweet and juicy—good for canning. Early August.

Burbank. Large, cherry-red Plum ripening about mid-August. Hardy, good producer.

Stanley. Large, deep bluish-purple Prune with excellent sweet flavor. Best for commercial or home use. Midseason, about September.

For Cross Pollination:

Abundance and Burbank are Japanese varieties and should be planted together for pollination.

Stanley, an American variety, is self-fruitful. American and Japanese varieties do not mix.

Plant 15 to 20 feet apart.

PEARS

Selected No. 1 Grade, 2-year old trees, 11/16 inch caliper—\$2.25 each, 3 for \$6.00

Flemish Beauty is self-unfruitful, so plant with another Pear for cross-pollination.

Bartlett and Seckel are incompatible for cross-pollinating each other, so other varieties should be used.

Plant 15 to 20 feet apart.

Bartlett. Most popular all-purpose Pear. Large golden yellow fruit with pale blush. Excellent flavor. August–September.

Beurre Bosc. Large, deep yellow overspread with russet. Unsurpassed in quality and flavor. White fleshed. September.

Clapp's Favorite. Resembles Bartlett—large yellow fruit with brown flecks. Ripens a week or two earlier than Bartlett in August.

Flemish Beauty. Fine large, sweet juicy fruit. Strong grower and good bearer. September–October.

Seckel. One of the most delicious and ever-popular varieties. Small, russet brown Pears, ripening in October. Bears abundantly.

Sheldon. Large, round, russet and red Pears of first quality. Delicious. October.

DWARF FRUITS

Dwarf Fruits are very scarce and we regret we can offer only a very limited supply this year. These are on Mallory root stocks and will remain small and bear younger than standard types.

APPLES: Baldwin, Cortland, McIntosh, Delicious, R. I. Greening, Yellow Transparent. 2 yr., 9/16 in. caliper...\$3.75 each.

PEARS: Bartlett, Clapp's Favorite, Seckel. \$3.00 each.

Espalier Trees

Unique for Their Beauty, Utility and Delicious Fruit

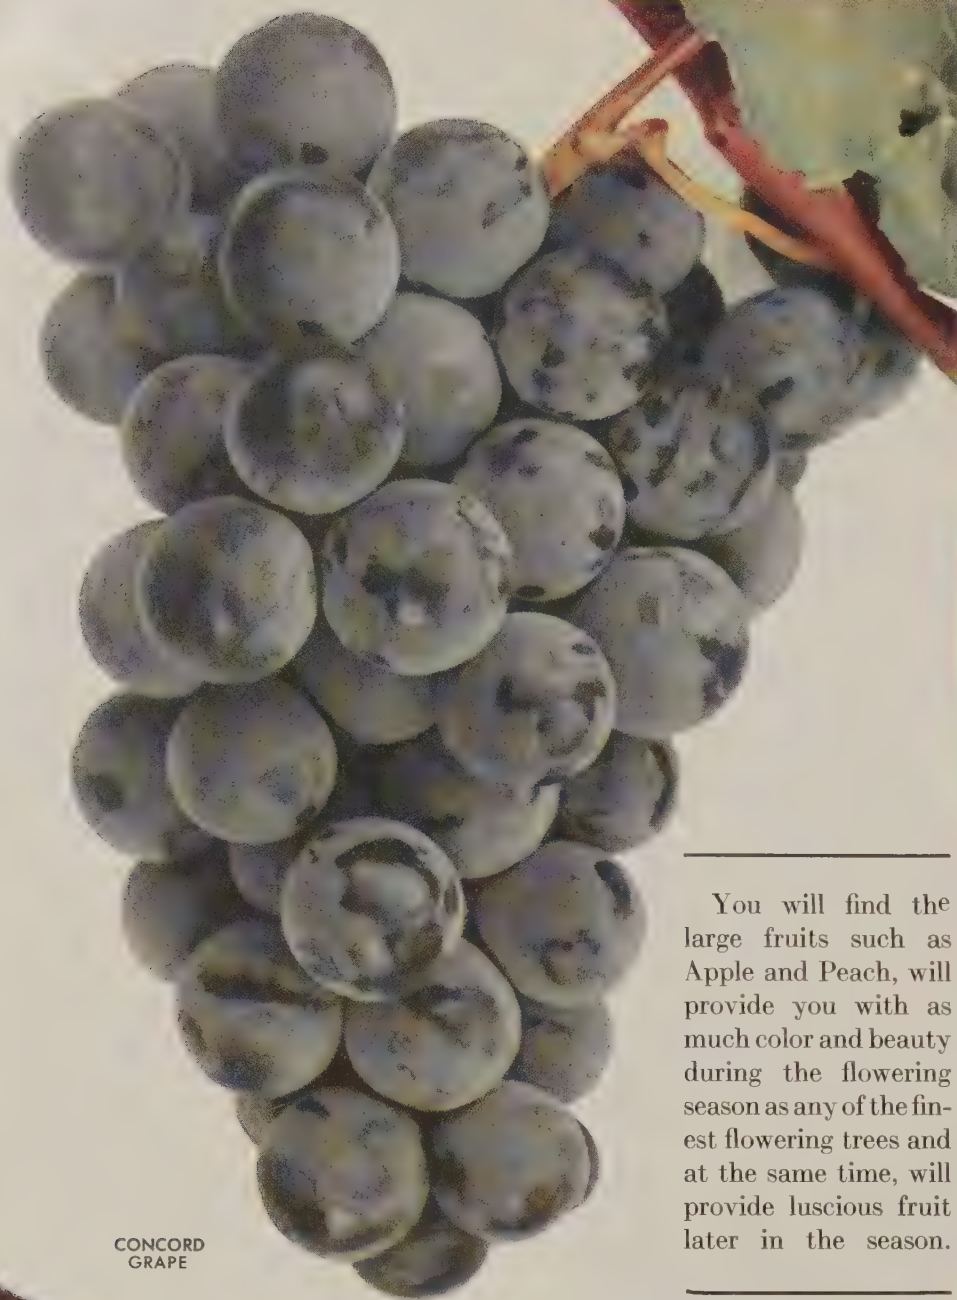

Beautify your home with an orchard growing on vines. Fruit trees grow in artistic, vine-like patterns against any wall, trellis or fence. They yield an abundance of delicious fruit that is often larger and richer than fruit from regular trees.

These genuine Espalier Fruit Trees are propagated from true dwarf roots and scions which limit their size and growth. They require no more care than a small shrub or climbing Rose. Many of these 7-year-old trees have a spread of 10 feet or more and up to 7 feet high. All are dug with a generous ball of earth and for this reason no shipping orders can be taken. Delivered anywhere in Westchester County.

Not only are there many sizes and styles, but many varieties of Apples and Pears. For this Spring planting only, they are priced from **\$12.50 to \$25.00 each.**

FRUITS

We offer a time-tested list of fruit trees and bush fruits. Every planting should include at least a few of these. Many are as beautiful in blossom as the finest ornamental plants and all bear fruit which is incomparably better in flavor than that which is purchased in the markets.

CONCORD
GRAPE

You will find the large fruits such as Apple and Peach, will provide you with as much color and beauty during the flowering season as any of the finest flowering trees and at the same time, will provide luscious fruit later in the season.

RED
DELICIOUS
APPLE

BARTLETT
PEAR

GOLDEN
JUBILEE
PEACH

ROSEDALE'S GIANT HYBRID BLUEBERRIES

STANLEY PRUNE

INDIAN SUMMER RASPBERRY

We are offering principally two-year old stock—the finest size for planting and in varieties of known hardiness and superior flavor.

MARCH BLUEBERRY SPECIAL ORDER NOW
FOR EARLY ORDERS DURING MARCH ONLY
5 FOR \$4.95 12 FOR \$11.50

SMALL FRUITS

For Success with Small Fruits

1. Entire planting area should be ploughed or spaded to 8 inches or more depth.
2. Open a narrow trench and mix a liberal quantity of Driconure in bottom of trench.
3. Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.
4. Replace one-half soil and tamp firmly, adding more Driconure. Fill trench, leaving catch basin effect for watering. Water thoroughly twice weekly until started.

BLACKBERRIES

Alfred. The Mammoth Blackberry. For the home garden, Alfred is the ideal Blackberry. Tremendously large berries from 1½ to 1¾ inches long, practically free from seeds and extremely juicy.
Heavy, 2 yr. transplants.
25c. each, \$2.50 per doz.

ALFRED BLACKBERRIES

BOYSENBERRIES

A triple cross of Loganberries, Blackberries and Raspberries produced this unusual berry. They are tremendous in size, very prolific in bearing and produce a berry of highest quality. Our plants will bear quickly.
2 yr. transplants. .35c. each, \$3.50 per doz.

CURRENTS

New Red Lake. Finest of all Red Currants. The berry is unusually large in size and superior in quality. The clusters are long and filled out to the top. Heavy yields.
2 year.....45c. each, \$4.00 per doz.

We recommend for a family of four the following number of plants—depending, of course, on your appetite for fruit:

Blackberries.....1 dozen plants
Blueberries.....1 dozen plants
Currants.....6 plants
Gooseberries.....6 plants
Grapes.....4 to 10 plants
Red Raspberries.....1 to 2 dozen plants
Black Raspberries.....1 dozen plants

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of ROSEDALE NURSERIES of EAST VIEW, County of WESTCHESTER, State of New York, has been duly examined in compliance with the Agriculture and Markets Law, and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until October 1, 1949, unless revoked before that date.

Dated Albany, N. Y., Sept. 21, 1948.

C. CHESTER DU MOND,
Commissioner
A. B. BUCHHOLZ,
Director, Bureau Plant Industry

We attach copy of our certificate on all our shipments. Look for it. It is your guarantee backed by our State Department of Agriculture

BLUEBERRIES

Cultivated—Producing Giant Berries

Cultivated Blueberries are one of the most satisfactory fruits for a wide variety of conditions. These Blueberries—a Rosedale Specialty—we offer in the most delicious, largest, and best growing varieties, basing our selections on our familiarity and many years experience with them in the field. Constantly on the alert for the new, improved introductions, we add the following varieties to our list:

ATLANTIC WEYMOUTH DIXIE

Every order for a dozen or more will include some of these new, fine varieties. Separately these three new varieties are \$2.00 each.

We offer large stock of ready-to-bear plants now 4 years old and set with fruit buds in the following varieties:

Jersey Pemberton Rancocas
Rubel Stanley
3 for \$5.50, 6 for \$10.00, 12 for \$16.00
1½-2 ft. tall

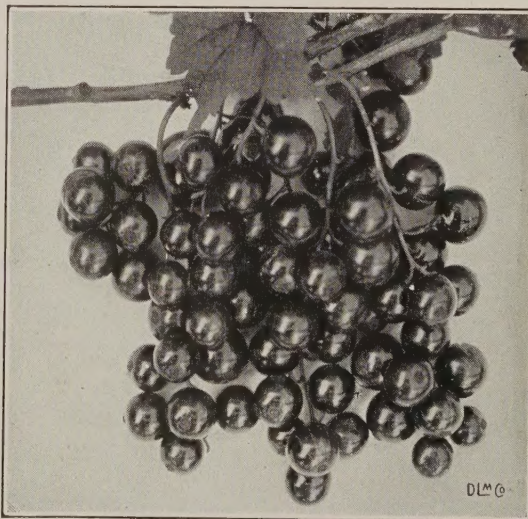

Each order will contain three or more varieties for cross-pollination

PLANTING:

Blueberries are hardy and need no special care. Dig hole large enough to accommodate the roots spread out. Mix plenty of peat moss or humus with the soil when planting. Plant in full sun or partial shade and mulch. This mulch is extremely important.

Uses:

Blueberries are excellent for eating as fresh berries, for cooking as in pies, for freezing and for landscape purposes. The beautiful color changes in the foliage in the Fall, coupled with the bushy form of the plants makes it a handsome plant in the landscape.

NEW RED LAKE CURRENTS

GOOSEBERRIES

Poorman. A red Gooseberry of good quality. Prolific grower of medium size. Midseason.
2 yr.....45c. each, \$4.00 per doz.

NIAGARA GRAPES

HARDY GRAPES

Caco. Our finest Grape. Wine red with sweet, delicious flavor. Large berries earlier than Concord.

2 year.....75c. each

Concord. Most successful in this section. Blue-black. Mid-September.

2 year.....50c. each

5 to 6 ft., 4-yr.-old Bearing Age. \$2.00 each

Delaware. Sweet, red vinous. Late September.

2 year.....50c. each

Niagara. Pale green, sweet, ripens with Concord, about mid-September.

2 year.....50c. each

4 to 5 ft., 4-yr.-old Bearing Age. \$2.00 each

Portland. A newer white Grape and one of the best for this section. Very early with a delicious flavor. About late August.

2 year.....50c. each

Large, 4-year-old, ready-to-bear Grape

Vines available in several varieties—
5 to 6 ft., \$2.00 each

RASPBERRIES

Indian Summer. Red EVERBEARING. A grand new variety produced at Geneva Experiment Station. Produces a crop in mid-June and then again in early September until freezing weather. Vigorous. Hardy at Geneva.

2 yr. Transplants. .40c. each, \$3.50 per doz.

Marcy. Red. Considered by many as the finest red Raspberry yet introduced. The fruit is very large, firm and of high quality. The canes are strong, thrifty and hardy. Introduced by New York State Agricultural Experiment Station. Late June.

2 yr. Transplants. .35c. each, \$3.00 per doz.

Taylor. A new Red Raspberry. Plants are vigorous, hardy, and productive. Long, conical shape, firm, thick flesh. Fairly early, about late June.

2 yr. Transplants. .35c. each, \$3.00 per doz.

Cumberland. Standard mid-season Blackcap, ripening about late June. Most widely planted variety grown for market and home use. Appearance and quality of fruit is superior.
2 yr. Transplants. .30c. each, \$3.00 per doz.

ROSEDALE PLANT FOODS STIMULATE GROWTH

3 AGRICO Fertilizers for Better Lawns and Gardens

Each of these three special-purpose AGRICO Fertilizers is made to do its own job and do it better than any all-purpose fertilizer could possibly do. Yet Agrico costs no more . . . is more economical to use . . . gives you more value, per pound and per dollar.

Agrico for Lawns, Trees and Shrubs

If you have a good lawn, keep it that way by feeding it with AGRICO every Spring and Fall. Use Agrico in rebuilding lawns. Also feed your trees and shrubs. Use 30 lbs. per 1000 square feet.

5 lbs.....\$0.45	25 lbs.....\$1.60
10 lbs......80	50 lbs..... 2.65
100 lbs.....\$4.75	

Agrico for Gardens

Use this special-purpose AGRICO for flowers of greater health and beauty—and for larger yields of vegetables, richer in minerals and vitamins. Use 40 lbs. per 1000 square feet.

5 lbs.....\$0.45	25 lbs.....\$1.60
10 lbs......80	50 lbs..... 2.40
100 lbs.....\$4.25	

Agrico for Broadleaf Evergreens

Rhododendrons, Azaleas and other acid-loving plants must be fed with care. This AGRICO provides all needed plant foods and also acidifies the soil essential for best results. Use approximately 1½ lbs. per 1000 running feet.

10 lbs...\$1.10	50 lbs..\$3.40
25 lbs... 2.10	100 lbs.. 5.50

COMPLETE INSTRUCTIONS PRINTED ON EVERY BAG

AGRINITE

An all organic fertilizer; 8¼% nitrogen, 100% organic. Use at rate of 4 lbs. per 100 square feet. Agrinite is not an animal manure or sewage by-product—it is clean, dry and grease-free, with no offensive odor. It is easy to apply by hand or by spreader, being carefully ground and screened to assure a free-flowing product. Whenever you need all-organic nitrogen, use Agrinite and see for yourself how efficient and economical it really is.

50 lbs.....\$2.50 | 100 lbs.....\$4.45

DRICONURE

Organic fertilizer made up of three-fourths dehydrated poultry manure and one-fourth peat moss, packed in tight paper bags for easy storage. Easy to handle and may be used on lawns, gardens both vegetable and flowers, and shrubs and evergreens. We highly recommend it as economical and of lasting value if used liberally. Cannot burn if carelessly applied.

50 lb. bag.....\$2.25

AGRI-LIME

A finely ground limestone for lawns, gardens and flower beds.

50 lbs.....\$0.90 | 100 lbs.....\$1.50 | 1 ton.....\$18.00

PEAT MOSS

Canadian Horticultural Peat, packed in old-fashioned large compressed bales. Use liberally in preparing beds for Broadleaved Evergreens, Blueberries or acid-loving trees. Fine neat mulch for anything. A deep mulch retards weed growth.

Cub bale.....\$2.75 | Jubilee bale...\$3.75 | Large bale....\$5.75

NATURAL HUMUS

A screened Natural Humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting where top soil is poor. Sold in bulk.

Per cubic yard...\$9.50—Packed in sacks approximately 80 lbs. \$1.50

BONEMEAL, SHEEP MANURE, ALUMINUM SULPHATE and SUPERPHOSPHATE available at current prices. Our Fertilizer Department will be glad to advise you.

We have recommended and sold Scott's seed for over 15 years and we believe there is no better seed available on the market today. The clean, weed-free seed and well-balanced fertilizer make it simple to produce a velvety lawn which is the envy of your neighbors.

Scott seed is famous for its high germination and freedom from weeds and is, therefore, more economical. Even greater economy can be effected by using a Scott Spreader for sowing seed and spreading fertilizer.

SCOTT'S LAWN SEED. For lawns in full sun, light shade. Triple cleaned, 99.91% weedfree seed.

1 lb.....\$1.35	10 lbs.....\$12.75	50 lbs.....\$59.50
5 lbs..... 6.45	25 lbs..... 29.75	100 lbs.....115.00

SCOTT'S SPECIAL PURPOSE BLEND. Formerly Scott's DENSE SHADE, recommended for such locations, also for poor dry soils, terraces, playgrounds and other areas where growing conditions are not good and rugged turf is desired.

1 lb.....\$1.15	25 lbs.....\$26.25
5 lbs..... 5.45	50 lbs..... 52.50
10 lbs.....10.65	100 lbs..... 97.50

SCOTT'S BENTGRASS. For a lawn like a golf putting green. Use 2 or 3 lbs. per 1000 sq. ft.

1 lb...\$1.95
5 lbs.. 9.35

SCOTT'S CLOVER

For thickening lawns on poor soil. Not included in Scott mixtures because it is better to sow alone. Small box (for 2500 square feet) 95c. Large box (for 5000 square feet) \$1.95

SCOTT SPREADERS. Provide easy, economical way of applying all Scott products.

No. 25—Sized for average city lot. Spreading width 16 in. Rubber tired.....\$9.95

No. 50—For large lawn—hopper capacity is 25 lbs.

Seed or 50 lbs. Turf Builder. Rubber tired;

20 in. spread.....16.50

SCOTT'S TURF BUILDER. The complete food for grass. Use 10 lbs. per 1000 sq. ft.

10 lbs.....\$1.35 | 50 lbs.....\$3.95

25 lbs..... 2.50 | 100 lbs..... 7.50

500 lbs.....\$35.00

SCOTT'S PEST CONTROL. Multiple action preparation to keep in check Japanese Beetle grubs, Chinch bugs, etc.

Box treats 750 sq. ft.....\$1.95 | Box treats 2500 sq. ft....\$4.95

Drum for 11,000 sq. ft.....\$18.85

SCOTT'S LAWN FOOD and WEED CONTROL. A new, dry compound quickly applied with a spreader, feeds grass as it destroys weeds.

Small box.....\$1.00 | Box for 2500 sq. ft.....\$3.50

Drum for 11,000 sq. ft.....\$12.75

SCOTT'S 4-X. For sprayer application, destroys weeds without harm to grass.

Trial Size (600 sq. ft.).....\$0.45 | Small Size (1400 sq. ft.)..\$1.00

Large Size (6000 sq. ft.).....\$3.25

Mail Orders:

While ours is primarily a local business within our truck delivery area we can handle Parcel Post, Express and Freight deliveries of all plants except those requiring a ball of earth.

No Mail Orders can be accepted for less than \$5.00 except on Bulbs.

No C.O.D. shipments will be made unless order is accompanied by a 25% deposit.

All shipping charges must be borne by the customer except where otherwise noted.

Please be sure to give correct shipping address and instructions.

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please address all mail orders and communications to our Post Office Address, Eastview, N. Y.

Hybrid French Lilacs

French Hybrid Lilacs—a group of the loveliest and most versatile of Flowering Shrubs—provide the wide range of colors shown in this collection of blooms.

Our stock is well-budded and ready to produce flowers immediately.

We recommend handling with a ball of earth for quick results.

For complete listing of varieties, colors, and sizes, please see page 4.
